

Bill Colescott

It is with a heavy heart that I inform you Bill Colescott passed away on October 5th. Bill was a Sunnyvale Public Safety Officer (police officer/firefighter), worked for LN Curtis and was the Douglas Engine Company's volunteer chief. His wife, Margaret, was the District's first Secretary.

Margaret had nothing but praise for the crews that have treated Bill over the last few years with his heart attacks and a stroke this last weekend. He was sent home on hospice and died peacefully yesterday with family at his side at home.

He was a huge supporter of East Fork and where we are today. His family will ask for donations in lieu of flowers to our Burn Fund and Austin's House.

Bill was a gentlemen's gentlemen. Always faithful to provide sage advice. He loved our valley and our career field. On behalf of those he mentored through the years, thank you to everyone who responded and cared for him. Your commitment, passion, dedication and compassion was already recognized by Bill and Margaret.
