

Henry Dreyer

Retired and former Douglas County Engine Company volunteer Henry Dreyer passed away on August 6, 2016. Many of you probably didn't know Henry. He was one of the last active members of the Douglas County Engine Company prior to its closing operations as a volunteer company several years ago. He was very committed to the volunteer program and proud of himself in being one of the few who could with ease operate what used to be Water Tender 1, a large cab over unit with more than double the number gears than our newer units and of the manual type.

Henry was a hard working individual. He loved his work on his families agricultural interests, never missed a tractor pull, and always believed that he could fix or build anything mechanical. Our thoughts and condolences go out to his father Roland , his wife Kathy and his family.
