

COVID-19 Vaccine Appointment Scheduling Directions

.....

1. Visit the scheduling website at <https://bit.ly/2XF64Cp>
2. Select a location that says 1st dose next to it. Then click the blue "NEXT" button at the bottom of the page.
3. A calendar will pop up. If all dates on the calendar are grayed out that means all current appointments are full. It might say there are no appointments until May. That message is a system error and only means the event itself is booked for the week, not until May. You can click the "BACK" button and select a different event to see the availability.
4. If you see a date that is not gray, click on it and you will see appointment times show up below the calendar. Click on a time to book an appointment. Then click the blue "NEXT" button at the bottom of the page.
5. Fill in your information. Do not leave any blanks. If you are a senior age 70 and older, fill in the "Employer" space with the word "senior". **Proof of age and residency will be required at event.**
6. Click the blue NEXT button. If it doesn't take you to another page, check the information you entered for errors or remove the dashes you placed in the space for your phone number.
7. The next page should ask you to confirm your appointment. It won't list your name but will list the date and time and location of the appointment. Click the green CONFIRM button and you should receive an email after confirming your appointment.
