ARTICLE 10 Grievance Procedures

A. Definitions

1. Grievance

A grievance is a disagreement between an individual or the Association and the Fire District concerning discipline or the interpretation, application or enforcement of the terms of this CBA, District policies, procedures, or regulations.

2. Grievant

A grievant is a person employed by the District and represented by the Association pursuant to the terms of Article 4 (Appendix A) who has submitted a grievance as defined above. Alleged violations, misapplications, or misinterpretations which affect more than one employee in a substantially similar manner may be consolidated at the discretion of the District or the Association as a group grievance and will thereafter be represented by a single grievant. The Association may be a grievant in cases limited to alleged violations of sections which provide specific benefits to the Association (excluding Article 7).

3. Day

The term "day" will mean a business day, excluding all holidays recognized by the District.

B. Process

An attempt will be made to resolve all potential grievances at the lowest level. If a potential grievance remains unresolved the Association Grievance Committee shall proceed as follows:

Step 1: Grievance Determination

The Grievance Committee, upon receiving a written and signed petition, shall determine if, in their opinion, a grievance exists. If in their opinion no grievance exists, no further actions shall be taken. Once the committee determines that a grievance exists the Association shall become the "grievant" as the term is used in this article.

Step 2

If the Grievance Committee believes a grievance does exist, the Grievance Committee shall, within twenty (20) days from the event giving rise to a grievance, or from the date the committee could reasonably have been expected to have had knowledge of such event, submit a written grievance form to effpd_executive_staff@eastforkfire.org.

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

1 An executive staff member shall, within ten (10) days after receipt of the
2 written grievance, meet jointly with the grievant and Association
3 representative(s). If a meeting is held, the executive staff member shall
4 have ten (10) days following such meeting to issue his/her written
5 decision. Failure to meet or issue a decision pursuant to the above will
6 result in the grievance being automatically moved to the next step.
7

8 **Step 3**

9 If a grievant is not satisfied with the decision issued in Step 2, the grievant
10 may, within ten (10) days of the receipt of such decision submit the
11 grievance to the District Fire Chief. Within 10 (ten) days of receipt of the
12 grievance, the District Fire Chief shall meet jointly with the grievant and
13 Association representative(s). If a meeting is held, the District Fire Chief
14 shall have ten (10) days following such meeting to issue his/her written
15 decision. Failure to meet or issue a decision pursuant to the above will
16 result in the grievance being automatically moved to the next step.
17

18 **Step 4**

20 grievant may appeal the matter as set forth in Article 12.
21

22 **C. General Provisions**

- 23

26 considered settled based upon the decision rendered at the prior step.
 - 27 2. The grievant may be represented by a person of the grievant's choice.

F. Rules of Evidence

Strict rules of evidence will not apply. However, rules of evidence and procedures for conduct of hearings will be guided by the standards in the American Arbitration Association voluntary arbitration rules or the Nevada Administrative Procedure Act, NRS Chapter 233B.

The observations shall be promptly documented, and the supervisor will use the chain of command to contact the Duty Chief.

4. Return to Work

- a. All tests for all substances will immediately indicate positive or negative prior to the employee being released from the collection facility.
- b. All employees who are tested for drug and/or alcohol use shall only return to duty if the test result is negative.
- c. If an employee tests positive, they will not be allowed to return to work and will be placed on Administrative Leave until it has been determined by the MRO to be a false positive.
- d. If the test results are positive, refer to discipline in Article 17 H.
- e. An employee must submit to a return-to-duty drug or alcohol test before resuming the performance of safety sensitive functions following disciplinary action and treatment.

F. Alcohol testing

1. A test result of .00 - .02 will be considered a negative result.
2. A test result of greater than .02 will be considered a positive result.
3. Any test results greater than 50% of those levels specified in NRS 484 C. 110 (3), will be considered a positive test.
4. The MRO will review the findings of a drug test with the employee before a final determination is made that the employee did not pass the drug test. The purpose of this review is to ensure that the findings of a "positive" test are not the result of the employee taking prescription medication in the amount prescribed.

G. Follow-up

1. Employees who are returned to duty after completion of a substance abuse rehabilitation program are subject to follow-up testing for at least one year and up to five years. The MRO shall recommend to the District the duration and when follow-up tests should occur.
2. Every effort will be made to respect the privacy and dignity of employees in the test sample collection process.

***Non-Supervisory Agreement Between the East Fork Fire Protection District and
the East Fork Professional Fire Fighters' Association Local 3726***

3. The collection of test samples from applicants and employees will be conducted by health care professionals in a private setting.
4. Proper chain-of-custody procedures will be adhered to.
5. Test samples will be tested by an independent certified medical laboratory. The name and address of the laboratory will be available to employees upon request.
6. All final results will be verified in writing by the MRO, who will then forward those results to the Director of Administrative Services, who will maintain them in a secure location.

H. Discipline for Violations

1. A test result of .02 - .039 will result in a minimum five (5) day suspension without pay.
2. A test result of .04 or greater will be considered as the second positive alcohol test within a ten (10) year period and will result in termination.
3. Any drug test results greater than 50% of those levels specified in NRS 484 C. 110 (3), will be considered a positive test.
4. An employee who tests positive for alcohol or drugs and is not terminated will receive a minimum five (5) day suspension without pay, six-month performance probationary period, and a mandatory referral to a Substance Abuse Professional (SAP). The employee will be evaluated by the SAP and follow the treatment and rehabilitation program prescribed. The District is NOT authorized to receive any diagnoses or treatment information from the SAP. If the SAP concludes, in writing, that the employee is not cooperating or progressing with the treatment plan within a reasonable time period, they will report such information to the District for discipline. A second positive test within ten (10) years of the first positive test will result in termination of employment.
5. Refusal to submit to a test, intentionally tampering with, causing another person to tamper with, substituting for, or causing another person to substitute for a urine and/or blood specimen, whether the employee's own specimen or another employee's specimen, will constitute cause for termination of the employee who engages in such activity.
6. This article does not constitute a waiver of disciplinary appeal procedures provided for in a collective bargaining agreement.

**A. Call Back (for employees with a Fire PERS\PERs membership on or before
December 31, 2009)**

1. Except as it may conflict with the Nevada Administrative Code at 284.214, "Call Back" pay is defined as compensation earned for returning to duty after an employee has completed his/her regular shift, is off duty for any period of time, and is requested to return to duty with less than twelve (12) hours' notice.

Any electronic response system must comply with the 12-hour rule and not allow the employee call-in response to govern notification for purposes of the 12-hour rule.
4. The District may not convert what would otherwise be an overtime shift to a call-back shift by waiting until there is less than 12 hours' notice to request a return to duty, if the employer has knowledge more than 12-hours before the start of the shift to be staffed, either through notification or through normal staffing policies, of the staffing need.
5. For reporting purposes, the call back period must not exceed the duration of the initial call back shift or extend beyond the beginning of the member's next regularly scheduled shift.

ARTICLE 32 Holiday Pay

56-Hour Shift Employees

56-hour employees on a twenty-four-hour (24) schedule will receive two (2) lump sum allowances of seventy-two (72) hours of straight time wages on the first pay dates in December and June in lieu of holiday pay. Each payment will be considered compensation for the holidays during the previous six-month period. New employees will be compensated for a pro-rated share of hours based on their hire date (e.g. an employee who is hired on March 15th with 108 days left in the semi-annual period will have his/her holiday pay calculated as follows: 108 days x 100% divided by 182.5 days = 59.18%; 59.18% of 72 hours = 42.61 hours). Should additional holidays be declared by the President of the United States, Governor of Nevada, or the District Board, the disbursement will be increased by twelve hours for each additional holiday declared.

Employees who leave the District's employment prior to the December or June distribution dates under this provision will receive a pro-rated holiday pay distribution based on the time they served during the previous relevant six-month period.

Example: an employee who retires on March 15th with 105 days of employment in the semi-annual period preceding the June Holiday-pay payment issuance date will have his/her holiday pay calculated as follows: 105 days divided by 182.5 days = 57.54%; 57.54% of 72 hours = 41.43 hours).

Seven hundred dollars (\$700) will be paid to the employee on the first pay dates in December and June of each year during the term of this contract for the prior six-month periods.

Any changes to the District's uniform procedure, or changes to the uniform requirements directed by the District, will be implemented only after the District meets and confers with the Association. This uniform allowance is all inclusive of uniforms and District approved safety equipment.

The parties may develop a uniform procedure and standard supply process.

All new employees will be eligible to charge to an authorized vendor and/or to receive reimbursement for approved uniform items not to cumulatively exceed three thousand dollars (\$3,000) and must be spent prior to completion of an employee's probationary period. Receipts for uniform items must be submitted for reimbursement. After the successful completion of the initial probation period, a new employee will receive the next scheduled uniform allowance payment.

Any new employee who fails to pass probation shall turn in all equipment or uniforms issued or purchased through the provisions of this article to the District. Any purchased uniforms or equipment lost or damaged during the probation period shall be reimbursed to the District by the departing employee. The District will require probationary employees to sign an agreement that allows the District to deduct the costs of unreturned equipment or uniforms from a separating employee's check or provide other relief. The District is solely responsible for this uniform program, including its creation and implementation.

Class A Uniform Allowance

Current employees who are not on initial new-hire probation at the time of distribution shall receive a one-time eight hundred and fifty dollars (\$850) uniform allocation for the expressed purpose of purchasing a Class A uniform as specified by the District. ARTICLE 34 Tuition Reimbursement

The District will reimburse full-time employees for their educational costs for coursework or specialized training that the District believes is beneficial.

Both credit-yielding courses from accredited academic institutions of higher learning and non-credit yielding technical training courses are eligible for tuition reimbursement. Tuition or class fees will be reimbursed for non-credit yielding courses if the subject matter directly relates to an employee's job description and/or future jobs within the District.

Tuition reimbursement will occur under the policies stated in the East Fork Fire Protection District Procedures Manual, Tuition Reimbursement.

Paramedic Education Tuition

The District in its sole discretion and in the exercise of its rights set forth in NRS 288.150(3) and (5) may on occasion provide its employees with the opportunity for fire, emergency medical services, or other specialized training or education other than budgeted training. The number of employees and amount of funding allocated under this article is subject to management discretion during the budget development process.

Selection of employees for consideration to receive such training will be through a process developed by the District in consultation with the Association. The District retains final decision-making authority. Only employees who have successfully completed their initial employment probation shall be eligible.

In consideration of the District's payment for paramedic training, the employee agrees to the following:

- a. If the employee is unable to complete the terms of training due to what the District and Association agree to be extenuating circumstances (personal disability illness/injury or significant illness/injury of a family member causing work impacts beyond FMLA) the District Fire Chief, in his/her sole discretion, may forgive the employee's obligation to repay the District for the cost of the training.
- b. If the employee fails to complete the program and obtain paramedic certification, the employee will refund the entire amount of tuition expenses paid by the District on behalf of the employee.
 1. The employee will enter into a repayment agreement with the District to reimburse the costs of the training within twenty-four (24) months or as otherwise agreed to between the employee and the District Fire Chief. The employee agrees that a failure to arrange for and to complete a repayment agreement will subject the employee to any and all remedies available to the District in law or in equity and that the District shall be entitled to recover its costs and

1 reasonable attorney's fee incurred in the collection of the
2 reimbursement.

- 3 c. If for any reason, with the exception of layoffs, the employee's employment
4 with the District ceases within six-months after completing the training and
5 receiving state paramedic certification, the employee shall repay the District
6 one hundred percent (100%) of the costs of tuition paid by the District. If the
7 employee leaves after six (6) months, but before the expiration of twenty-four
8 (24) months after receiving state certification, the employee shall pay back to
9 the District a pro-rated portion of the tuition based on the amount of
10 repayment time remaining calculated on a monthly basis.
- 11 d. If the employee's employment ceases after the expiration of twenty-four (24)
12 months after receiving state certification, the employee shall have no
13 obligation to repay the District for the cost of the tuition.
- 14 1. For example, if the employee leaves in the first month after receiving
15 state certification, the employee would owe the District one hundred
16 percent (100%) of the total cost of the tuition. If the employee
17 leaves in the twenty-third month after receiving state certification,
18 the employee would owe 1/24 percent of the total cost of the tuition.
- 19 e. The employee further agrees that, upon providing notice to the District of the

ARTICLE 57 Shift Trades

When an employee wishes to trade a work period with another employee, the following criteria shall be followed:

In order to qualify under FLSA, an agreement between individuals employed by the District to substitute for one another at their own option must be approved by the District. This requires that the District approve of the arrangements prior to the work being done, i.e., the District must know what work is being done, by whom it is being done, and where and when it is being done.

A. Trade Process:

1. In-Rank Trades

The employee requesting the trade shall enter it in Telestaff. The employee who will be working the trade shall then accept the trade. Once the trade has been accepted by the employee working the trade, the trade is approved.

2. Out of Rank Trades

The employee requesting the trade shall enter it in Telestaff. The employee who will be working the trade shall then accept the trade. The trade will then need approval by a Battalion Chief. Once the trade has been approved by the Battalion Chief, the trade is approved.

3. All requests made with less than 24 hours' notice will require approval by the on-duty Battalion Chief or Duty Chief.

Responsibility for arrangement for the repayment of such time rests with the employees involved. Traded time will be a contract between employees. The District has no authority to enforce the pay back of owed time between employees.

No obligation shall be placed upon the District for repayment of time voluntarily traded or repaid between employees. No obligation, financial or otherwise, shall accrue to the District because of such shift trades. Therefore, hours worked by an employee working a shift as the result of a shift trade shall be excluded from any overtime calculation for FLSA purposes. However, the regularly scheduled employee shall be compensated as if he/she had worked his/her normal schedule for the traded shift for FLSA purposes. Where overtime is required as the result of an employee's inability to fill a shift trade, the employee failing to fill a shift shall have his/her annual or sick leave balance, as appropriate, reduced hour for hour up to twenty-four (24) hours.

If the District promotes an employee outside the bargaining unit, that employee shall fulfill all of his/her trade obligations, prior to the promotion taking effect.

***Non-Supervisory Agreement Between the East Fork Fire Protection District and

C. Employees may utilize the following trade times:

1. Employees must provide proof that they have fulfilled their trade requirements for the District staffing software.
2. Employees shall not trade for other commodities other than repayment at their normal rate for the hours the employee worked or for a straight shift-for-shift trade.

The weighting of each aspect of the procedures will be determined by the District. The District will have the exclusive authority to determine the passing scores for each component of the promotional process and determine the number of candidates that move on to the next step of the promotional process.

ARTICLE 63 Temporary Promotion

The District retains the right to temporarily promote an employee to the positions of Engineer, Captain, and Battalion Chief to replace an employee injured/ill, as documented by a treating physician, or who has accepted a light duty assignment, has elected to use Leave Without Pay, or is deployed for military service, and who will be absent for more than twelve (12) full pay periods (the "Absent Employee").

The temporary promotion will take effect after the Absent Employee has missed work for three (3) full consecutive pay periods as calculated from the first shift the Absent Employee fails to or is unable to report for duty. No temporary promotion will exceed twelve (12) full pay periods and the employee will be entitled to receive a promotional pay increase under Article 12. The resulting vacancy of the temporary promotion above a subordinate rank may be temporarily filled with a temporary promotion of a qualified individual from the current approved ranked promotional list for the vacant position created with the end goal being the lowest vacancy is filled by a Floater. If there is no available Floater then the temporary promotion will be to the rank of the initial vacancy only.

After the temporarily promoted employee has worked twelve (12) full pay periods, progress notes from the Absent Employee's physician, in the case of an injury/illness, will be utilized to determine if further need for a temporary promotion(s) will be necessary to fill the Absent Employee's position. If progress notes or military service indicate the employee will return to work within three (3) full pay periods, no further temporary promotions will occur. If the Absent Employee is expected to be unable to return to work within three (3) full pay periods, the District may make another temporary promotion(s).

The District agrees that any temporary promotion will be filled in the descending order of the current promotional list for the position to be filled. If there is no current promotional list or no qualified candidate, the District Fire Chief or designee may interview qualified candidates and make temporary promotions.

If an employee receives a temporary promotion and is permanently promoted within twelve (12) months of the employee's temporary promotion, any time served in the temporary promotion shall be counted toward their probationary period in the new position.

If an employee receives a permanent promotion during a temporary promotional period with no break in service the employee's promotion date will be the same date the employee's temporary promotion became effective.

ARTICLE 64 Seniority

A. Types of Seniority

Two types of seniority will be established: District (overall) Seniority and Rank (time in grade) Seniority.

1. District Seniority will be determined by the following criteria:

- a.** An employee's District Seniority will be determined based upon continuous full-time employment with the District as determined by the hire date for a full-time position.
- b.** For the purpose of settling a tie, should two or more employees have the same hire date, the tied employee's seniority will be based upon their order on the ranked hiring list. If employees are tied on hiring list, the tied employee's seniority will be determined by the District Fire Chief.
- c.** Continuous service will be broken only by resignation of a full-time position, discharge, or retirement.
- d.** District seniority will only be used for the purposes of lay-offs or a reduction in work force.

2. Rank Seniority will be determined by the following criteria:

- a.** An employee's Rank Seniority will be determined based upon the date an employee is hired, transferred, or promoted into the rank in which they hold.
- b.** For the purpose on settling a tie, should two or more employees have the same hire/promotion date, the tied employee's seniority will be based upon their order on the ranked hiring/promotion list. If employees are tied on hiring list, the tied employee's seniority will be based upon District Seniority.
- c.** An employee that is demoted to a lower rank, or transfers back to a position in another division, will be placed within that lower rank, or positions seniority list, based upon the date in which they would have originally qualified for placement in that rank. If any ties exist, the above procedure will be used to determine seniority.
- d.** Rank seniority will be used for all operational or other needs of the District, i.e. annual station rotations/requests, open positions, shift movement or requests or a request by the District due to operational need.

B. Seniority List

- 1.** Upon completion of this agreement, lists defining the District and Rank Seniority will be agreed upon. These lists will become the only working and approved seniority lists.

2. No probationary employee will be eligible for voluntary or forced overtime or shift trades until the employee has completed EMS and fire related core competencies as determined by the District. The core competencies must be achieved within the first thirty (30) shifts worked after being assigned as a fifty-six (56) hour employee.

However, any such credit for work experience may not result in assignment to a pay step greater than the fourth (4th) step in the current pay plan.

Example: A Firefighter/Paramedic with six (6) years' experience will be placed in Step 4 of the Pay Plan. A Firefighter/Paramedic with four (4) years' experience will be placed in Step 4 of the Pay Plan.

ARTICLE 69 Paramedic

Any employee hired into one of these classifications (Firefighter/Advanced EMT's or Firefighter/EMT Basics) after July 15, 2020, shall be required, as a condition of his or her employment, to achieve certification (or be in the process of) as a Paramedic within forty-eight (48) months of the date of employment. Employees hired pursuant to this provision who do not attain Paramedic certification within the required time period will be terminated without cause as if they were an initial probationary employee who did not successfully complete the probationary period. The employee's participation in paramedic school shall be pursuant to Article 34 (Paramedic Education Tuition).

The District Fire Chief may extend the 48-month time frame for extenuating circumstances that are out of the control of the employee. Examples include, but are not limited to, necessary classes not being offered, the employee not being able to attend due to: operational needs or District coverage, family dynamics, National or International crisis, etc. These provisions do not excuse the Firefighter from completing the certification requirement as soon as possible.

The District agrees to recruit only Firefighter/Paramedics as a priority during any open recruitment or under the lateral transfer process set forth in Article 68.

In the event that the recruitments and selection process do not yield qualified Firefighter/Paramedic applicants based on the District's evaluation process, the parties agree the District has the unconditional right to recruit and hire Firefighter/Advanced EMT's or Firefighter/EMT Basics.

APPENDIX B Employee Development/Performance Program

**East Fork Fire Protection District
Employee Development/Performance Program (EDPP)**

Theory of Employee Development/Performance Program

Discipline is the most difficult and unpleasant experience of work. Few employees enjoy being the focus of a disciplinary action, and few supervisors enjoy taking disciplinary action against an employee.

For most people, the only discipline that will be required during their working careers comes from the informal interaction they have with their supervisor. Informal resolution is best accomplished when supervisors adequately explain expectations and:

- Utilize effective **coaching** techniques.
- Ensure employees receive a sufficient level of *training*.
- Remove **obstacles** that interfere with success.
- Provide timely *feedback*.
- Arrange for **consequences** based on performance.

It is a fact that some employees, at least once in their career, will have a problem that must be dealt with. If the employee is treated as a professional who must solve the problem, the employee is more likely to respond positively and will solve the problem. It is also a fact that supervisors and employees can resolve the majority of all problems informally.

Employees contribute to informal resolution by:

- Taking responsibility for the elimination of problems.
- Acknowledging that the willful failure to take responsibility may result in discipline.

When it is determined that an employee is unwilling to solve a problem, management is placed into a difficult situation. Placing the responsibility for eliminating the problem squarely on the shoulders of the employee is often the only solution. Discipline is the compelling tool used to enforce that responsibility. Failure by an employee to correct a problem results in discipline.

It is the underlying theory of the EDPP that when supervisors and employees work together, most problems can be resolved informally without having to resort to formal disciplinary measures. Thus, EDPP consists of two parts, involving informal and formal processes.

Employee Development and Performance Program is a Two-Part Process

The “**Informal Process**” involves techniques that are utilized to:

- Increase motivation and development.
- Prevent problems from developing.
- Ensure responsibility is not ignored.
- Discover mutually acceptable solutions to problems that do arise.

The “**Formal Process**” involves progressive disciplinary action, and occurs when:

- Attempts to resolve a problem informally fail.
- An employee is not taking responsibility to correct problems.
- Problems are of an immediate and serious nature and therefore cannot be dealt with informally.

What is a Problem?

A problem can be defined as the difference between a management expectation and an employee’s success in meeting that expectation. Problems vary, but can generally be assigned to one of three distinct categories: Conduct, Attendance, or Performance. Each category is defined and examples are provided.

In each case, these are examples only. They are in no way intended to be all-inclusive for the category.

CONDUCT: Conduct is a mode or standard of personal behavior. It is how a person acts or carries him or herself and how that person interacts with those around him or her. It is more closely related to personal behaviors than to performance of job tasks. Examples of poor conduct include:

Insubordination

- Defiance of authority.
- Willful failure to do an assigned job or obey an order.

Alcohol or controlled substances

- Reporting to work under the influence of or use of alcohol while on duty.
- Using or selling controlled substances.

Fighting

- An argument between parties, provoked or unprovoked, that is disruptive to others or the public.
- A hostile encounter between parties resulting in physical combat.

***Non-Supervisory Agreement Between the East Fork Fire Protection District and
the East Fork Professional Fire Fighters' Association Local 3726***

Threatening or striking another person

- Uttering an expression or intention to inflict harm to another person.
- Physically attacking or inflicting bodily harm to another person.

Dishonesty

- Falsifying personnel documents.
- Falsification of EFFPD records or incident reports.
- Lying.

Theft

- Engaging or conspiring in the theft of City property or supplies.
- Theft of the personal property of others.

Misconduct

- Indulging in boisterous conduct or obscene language in public view.
- Engaging in illegal activities, on duty or off duty.
- Inappropriate comments or slurs that may be deemed discriminatory or that create a hostile work environment.
- Violation of District Policies, Rules and Regulations, or engaging in other activities disapproved by the department as stated in writing.

Attendance: Attendance relates not only to the ability of a person to arrive at work at the start of their scheduled shift, but also to be present at assigned locations throughout the shift. Examples of attendance problems include:

Tardiness

- Failure to report to work at the beginning of a shift, regardless of last-minute unapproved trades.
- Failure to transfer from station to station or to an assignment in a timely manner.

Absenteeism

- Failure to notify supervisor of emergency absenteeism prior to the start of the work shift.
- Failure to call in on scheduled work day (no call/no show).
- Failure to arrive at work after calling in late.
- Failure to report to work at the conclusion of approved leave.

Abandonment

- Leaving the station, unit, or assigned work location without supervisor approval.
- Leaving the scene of an emergency incident without supervisor approval.

Performance: Performance refers to a person's ability to do satisfactory and competent work. Failure to follow established policies or rules and failure to meet performance standards are among the most common problems associated

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

with performance. The former is within the power of a person to control, and may, therefore, logically result in discipline. Examples of performance problems include:

Appearance

- Failure to wear approved uniforms on duty.
- Wearing uniforms beyond their acceptable appearance.
- Failure to maintain a professional image on duty.
- Failure to maintain appearance within the guidelines of the EFFPD policies & Procedures.

Safety

- Engaging in acts, which expose any person to potential injury.
- Failure to use safety equipment provided by the EFFPD where appropriate.
- Failure to follow safety guidelines as prescribed by the EFFPD Policies & Procedures, Rules and Regulations, and Administrative Directives.

Performance of Duties

- Poor performance of routine and/or emergency duties or assignments.
- Poor performance while in a training or evaluation setting.
- Fails or is slow in reporting for emergency or non-emergency duties and functions.
- Fails to follow direction given by a supervisor or instructor.

Complex Problems

Although problems are generally assigned to one of three categories, it is essential to remember that problems often involve factors that overlap into two, or even all three categories. For instance, a tardy employee who threatens the supervisor when confronted has demonstrated problems in two categories: Attendance and Conduct. As a result, that employee may receive discipline in two or more categories. Supervisors must remember that it is important to consider an employee's overall success in meeting expectations.

Which Process Do I Use?

When a problem initially arises, the first question usually asked is: Should there be an attempt to resolve this problem informally, or does the problem warrant formal discipline? The answer to that question cannot be decided until the supervisor gathers some basic information concerning the problem.

- Was there negative action or negligence on the part of the employee that is intentional?
- Did the action or negligence involve a breach of safety or honesty, or have a negative impact on operations?
- Was the action or negligence a violation of policy?

Information Gathering

Information gathering is a fact-finding mission, and the more time and effort put into finding out the facts, the easier the rest of the process will be. Information gathering usually starts as a conversation between the employee and supervisor to get a general idea of what happened. The supervisor should:

- Offer Association representation.
- Ask as many questions as needed to get the whole picture.
- Talk to co-workers, employees on other shifts, or anyone else with knowledge about the incident.
- Make a personal observation of any physical items involved.
- Listen attentively to what all parties have to say.
- Keep an open mind.

After all necessary information has been gathered; the supervisor should decide whether the problem could be handled by applying the Informal or Formal Process.

The Informal Process

The underlying goal of the Informal Process is to prevent problems from developing and to quickly eliminate problems that do arise. Six strategies and techniques have been determined to be important components of an effective Employee Development and Performance Program, especially a program that places a great deal of importance on supervisor and employee responsibility. When these strategies and techniques are properly utilized, supervisors should have very few discipline problems. When a problem is first identified, the supervisor and employee attempt to resolve it through these six strategies:

- Developmental Coaching
- The application of Training
- The removal of Obstacles
- The timely delivery of Feedback
- The arranging of Consequences
- Provide Counseling

Coaching

Coaching is an informal, often times spontaneous discussion designed to assist an employee in developing knowledge, skills, and abilities. It is the everyday interaction between supervisor and employee that leads to employee development.

Praise and encouragement are the most effective coaching tools. They enable the supervisory coach to define exactly what he/she expects in a positive way. A

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

1 good coach tries to be a “people developer” and you can’t develop people by
2 tearing them down.

3
4 There are several coaching actions that can contribute to effective supervision:

- 5
6
 - 7 • Provide employee with positive feedback.
 - 8 • When you have to criticize, focus on the problem, not the individual’s personality.
 - 9 • Give employees both positive and negative feedback.
 - 10 • Build and maintain strong relationships with employees.
 - 11 • Confront employees with problems in their performance.
 - 12 • Use active listening skills.
 - 13 • Listen more than you talk.

14
15 As an effective supervisor, you will need to know what to coach and when to
16 coach. Generally, you will need to assume the role of coach when a member of
17 your work team does not know how to do an assigned task, performs a job
18 incorrectly, or does not perform to prescribed standards.

19
20 Generally, if the performance problem is one of attitude or motivation, you may
21 need to counsel the employee.

22
23 Once you identify an area that requires coaching, either through direct
24 observation or an employee’s direct request for help, you can develop a coaching
25 plan. Elements of a plan may include:

- 26
27
 - 28 • Let employees know what is expected of them by clearly defined standards and job responsibilities. Develop a work plan with agreed upon tasks and completion dates.
 - 29 • Let employees know how they are doing through positive and negative feedback, evaluation of performance, and documentation of strengths and weaknesses.
 - 30 • Mutually develop a plan for improvement. Monitor progress in areas that need strengthening and suggest and provide appropriate training. Recognize and praise performance improvement.
 - 31 • Remember the principles of effective communication.

32
33
34
35
36
37
38 **Theory:** If an employee seeks assistance in resolving a problem, there is a
39 chance that the problem can readily be resolved. If a person does not recognize
40 that a problem exists, that person will have no reason to change his or her
41 behavior.

Guidelines for Effective Coaching:

- Resolutions should be discussed in terms of what is desired by the Fire District.
- Employee's comments or reactions should be encouraged.
- The supervisor should provide a rationale for policies or rules in question.
- All persons involved should listen carefully. A tip to assist in the communication process is to re-state what is heard to ensure adequate understanding.
- Commitments to change should be sought, and the door should be kept open for future discussions about the problem.
- Supervisors should express confidence in the employee's ability to improve.
- Coaching sessions should end on a positive note.

Training

Training employees for their jobs and developing their skills and abilities are important responsibilities of the supervisor. Part of your job will be to create a climate for learning by endorsing training activities, encouraging employees to take advantage of them, and helping them in every way to grow on the job.

Training consists of activities designed to provide employees with the knowledge, skills, and abilities required to do the job properly. Training usually takes place in a structured format with pre-established objectives. Problems can arise when employees are not provided with an appropriate level of training. When this occurs, attempts to resolve the problem any other way would be unsuccessful. Training deficiencies may be identified during Coaching sessions, or the supervisor may have to make a more thorough inquiry into the employee's training history.

Theory: If an employee lacks the necessary knowledge, skills, or abilities, he/she will be unable to perform effectively.

Guidelines for Effective Training:

- Supervisors who believe that a lack of training may be contributing to a problem should ensure that job requirements haven't changed since the employee was initially trained and that the employee has received appropriate training in all elements of the job.
- Any deficiency in training should be addressed by providing the employee with the training needed.
- The supervisor should monitor the employee's performance to determine if the training was successful.

1 **Obstacles**

2
3 Removing obstacles involves ensuring the employee has the time, tools,
4 equipment, and proper direction required to do the job. It may involve
5 determining if anything outside of the supervisor's immediate attention prevents
6 the employee from doing the job properly. Removing obstacles means that it is
7 important to look below the surface. Again, problems in this area may be
8 identified during Coaching sessions. Supervisors should be sensitive to
9 concerns and issues relating to the employee's personal situation. Should the
10 supervisor identify personal issues relating to performance, the utilization of the
11 Employee Assistance Program (EAP) is encouraged.

12
13 **Theory:** If a person does not have the time, tools, or equipment needed to do a
14 job, receives conflicting instructions, or has serious personal problems that
15 interfere with doing the job, that person will be unable to do the job properly.

16
17 **Guidelines for removing Obstacles:**

- 18
19
 - 20 • Supervisors should ensure the employee has the time, tools, and equipment
21 required to do the job properly.
 - 22 • Determine if anything, either from within the organization or from outside of
23 the organization, is preventing the employee from doing the job right.
 - 24 • Determine that specific actions have been taken to remove known obstacles.

25 **Feedback**

26
27 Supervisors should give employees feedback to tell them how they are doing.
28 Feedback can be used to discipline, correct, inform, or praise the performance of
29 employees.

30
31 Many supervisors mistakenly assume that employees know both how well they
32 are doing and how well their supervisor thinks they are doing. It is the
33 supervisor's responsibility to tell employees about their performance through
34 feedback.

35
36 Giving feedback to all employees - good and poor – is important. If we offer
37 feedback just to poor performers, we ignore the needs of good employees who
38 should be recognized for their efforts. Giving positive feedback is worth a
39 supervisor's time. By not correcting less productive performers through feedback
40 you may be implying that you are pleased with their performance.

41
42 Feedback is the act of providing specific qualitative and/or quantitative
43 information about conduct, attendance or performance, in relation to a given
44 standard or goal. For example, when a problem arises, the supervisor may elect
45 to Coach the employee as a method of informal resolution. If the problem does
46 not go away at that point, the supervisor should provide timely feedback on the

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

employee's success or failure at resolving the problem. Otherwise, the problem may not go away or may become worse.

Theory: If a person does not know exactly how well or how poorly he/she is doing, there is no way his or her performance can be improved. Regular, short-term feedback is essential.

Guidelines for Effective Feedback:

Supervisors should evaluate the following questions:

- Does the employee know exactly how well he/she is doing?
- Does the employee get regular, short-term feedback about job performance?
- Have expectations been clearly identified with the employee?

Consequences

Arranging consequences consists of ensuring it actually does make a difference, both to the employee and the organization, that a job is done and done correctly.

Theory: If an employee determines that it actually doesn't matter if the job is done correctly, or if the consequences of doing a job properly or quickly are unpleasant, ultimately, he/she will stop doing it correctly. For example: Does doing the job properly or quickly result in additional work for the employee?

Guidelines for arranging Consequences

Supervisors should evaluate the following questions:

- What differences does it make to the employee if he/she performs as he/she is supposed to? Are employees motivated to do the right thing?
- What happens when the employee does the job poorly or fails to do it at all?

Counseling

Counseling is a serious discussion between a supervisor and an employee designed to correct employee problems. Counseling is planned, has a specific purpose, and is intended to result in a specific action(s). When the supervisor identifies a problem that requires more than a coaching session or determines that coaching has failed to resolve a problem, he/she should plan to conduct a Counseling Session with the employee.

Counseling Procedure:

Once the supervisor has decided to counsel an employee, the next level supervisor will be contacted and informed of the proposed counseling. For

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

example, the Captain will contact the Battalion Chief. The Battalion Chief or next level supervisor will confirm the counseling recommendation by:

- Comparing the counseling against the employee's disciplinary matrix.
- Determine whether or not the counseling conforms to the discipline process and is consistent with previous decisions in similar circumstances.

If the Battalion Chief or next level supervisor confirms the counseling recommendation a Counseling session should be performed and documented using the EFFPD Counseling form (Form A). A copy of the form will be given to the employee, the Captain or next level supervisor will maintain a copy for 6 months, and the Battalion Chief will enter the counseling session into the disciplinary matrix **(this is informal)**.

If the employee's disciplinary history will not allow counseling or if it is determined that previous similar circumstances have resulted in formal discipline, the Captain or supervisor and the Battalion Chief or next level supervisor will move to the Formal Discipline Process and conduct an Investigative Interview.

Theory: Counseling is designed to assist an employee in eliminating a problem so that formal discipline will not be necessary.

Guidelines for Effective Counseling:

The guidelines for effective counseling are similar to those for effective coaching. However, supervisors are encouraged to consider the use of privacy, appropriate communication techniques, and overall tone of discussion to differentiate a counseling session from a coaching session. Counseling sessions should end on a positive, yet serious note.

- Problems should be stated in terms of desired versus actual conduct, attendance, or performance.
- The employee should be encouraged to provide comments or reactions.
- The supervisor should provide a rationale for policies or rules violated.
- All persons involved should listen carefully. A tip to assist in the communication process is to re-state what is heard to ensure adequate understanding.
- Commitments to change should be sought and the door should be kept open for future discussions about the problem.
- Necessary changes and appropriate time frames for compliance should be explained so that employees are aware of specific actions required of them.
- Supervisors should express a confidence in the employee's ability to improve.
- Counseling sessions should end on a positive yet serious note.

1 **Summary**

2
3 Supervisors should integrate the use of informal techniques into their everyday
4 management style. If they do so, they will see a decline in the number of
5 problems they must address. The use of informal techniques should become
6 second nature.

7
8 Attention to the six strategies or techniques by the supervisor is an important
9 step to assist the employee in eliminating a problem. It can then be more easily
10 determined when a problem persists, that the employee has not taken enough
11 responsibility upon himself or herself to eliminate the problem.

12
13 Employees who do not respond to informal resolution techniques compel the
14 supervisor to consider formal disciplinary action. This action moves us to the
15 formal discipline process.

16
17 **The Formal Process**

18
19 The Formal Process occurs as a result of either a failure of the Informal Process
20 to eliminate a problem, or as an immediate response to a serious problem that
21 could not have been dealt with informally. A decision to use the Formal Process
22 begins after the supervisor completes his/her information gathering and conducts
23 a review of all informal steps that may have been taken. Once a decision to use
24 the formal process is reached, the Supervisor will continue the process with the
25 next level supervisor. For example, the Captain will proceed with the Battalion
26 Chief.

27
28 The Formal Process consists of:

- 29
30
 - Preparing and conducting an Investigative Interview.
 - 31 • Utilizing the decision-making process in regards to discipline.
 - 32 • Preparing and conducting an Administrative Hearing, if applicable.
 - 33 • Documentation.

34
35 **Preparing for an Investigative Interview**

36
37 Disciplinary actions should follow the offense as soon as reasonably possible
38 and offenses must not be allowed to build up before action is taken. Before
39 meeting with an employee to discuss a problem that may lead to discipline, the
40 supervisors should take the time to prepare. The basic steps of preparation
41 include:

- 42
43
 1. Gathering information concerning the incident or violation to justify the
44 potential for formal discipline. The goal is to gather enough information to
45 ensure that the incident can be adequately addressed.

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

2. Reviewing notes from the information gathering process or documents from previous efforts at resolving the problem. **If any information suggests that the incident may be criminal in nature, the investigation or violation shall be immediately referred to the District Fire Chief or designee. If it is determined that the incident may be in violation of the EFFPD Harassment Policy (sexual, racial, workplace violence, etc.) it shall be referred to the District Fire Chief or designee, then forwarded to the Director of Administrative Services or designee.**
3. Preparing an agenda outlining major points to be covered in the meeting.
4. Providing the employee with notification of the meeting location, date, and time.
5. Ensuring that the employee has time to secure Association representation.

Once the steps taken to prepare are complete, the supervisors will then meet with the employee to discuss the problem. This is known as an Investigative Interview.

Conducting an Investigative Interview

The Investigative Interview is a formal meeting in which the supervisor and the Battalion Chief or next level supervisor and employee discuss the problem at hand. The supervisors identify the problem and discuss facts, evidence, etc., obtained during the information gathering phase. Section I of the EFFPD Disciplinary Action Form (Form B) is completed to document the Investigative Interview

During the Investigative Interview, the employee must be compelled to answer questions and is afforded the opportunity to provide an explanation.

The Investigative Interview should be conducted by the immediate supervisor and the Battalion Chief or may be conducted by the District Fire Chief and/or his/her designee, depending upon the nature and seriousness of the event leading to the meeting. Important points to remember during any meeting between supervisors and employees are:

Privacy: Meetings should always be held in private. When problems are discussed openly in front of others, people tend to become defensive and try to save face.

Listen: An effective meeting is a two-way conversation, not a lecture. The supervisor should remember that the employee may have a valid reason for what he/she did, or the employee may not know that he/she violated a rule.

Tone: The tone of this meeting should be neutral.

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

Use the Golden Rule: Individuals who become involved in this process are still dignified human beings and should be treated as such. Treat others as you would want to be treated if the roles were reversed.

Feedback: Any actions or non-action shall be communicated to the employee within fifteen (15) calendar days.

Making a Decision in Regards to Discipline

Once a Captain or supervisor and the Battalion Chief or the next level supervisor has conducted an Investigative Interview and has considered any response the employee may offer, the information from the Investigative Interview will be given to the District Fire Chief or designee, and a decision regarding formal action must be made. An initial evaluation of whether disciplinary action is appropriate involves the supervisors asking certain questions. These questions are intended to provide a remedial check on supervisory strategies:

- Is there sufficient evidence that the employee violated a rule or procedure?
- Can I demonstrate that the employee understood a rule/policy that was violated?
- Can I demonstrate that the employee knew in advance that such behavior would be subject to disciplinary action?
- Can I demonstrate that the rule violated was reasonably related to the safe, efficient, and orderly operation of the organization?
- Can I demonstrate that the employee committed an intentional act or omission?

After answering these questions, the supervisor should then utilize the Disciplinary Algorithm.

Disciplinary Algorithm

The Disciplinary Algorithm is a tool that assists supervisors in determining the appropriate level of discipline to apply. The Disciplinary Algorithm prompts the supervisor by asking questions that are designed to help determine the degree of seriousness of the offense and the impact of the offense upon the Fire District.

When the supervisor applies the circumstances of the offense to the Disciplinary Algorithm, he/she will be led to an appropriate range of disciplinary actions. The supervisor should select the lowest action necessary to compel the employee to take responsibility for eliminating the problem.

The Disciplinary Algorithm is designed to assist a supervisor in reaching a reasonable recommendation based solely upon the merits of the case at hand. The Disciplinary Algorithm requires the supervisor to consider three very important factors: **safety**, **honesty**, and if there has been a **negative impact** on

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

1 Fire District operations. Determining where the infraction falls in relation to these
2 three queries will help the supervisors to remain consistent throughout the
3 decision-making process.

4
5 **Safety**

6
7 It is incumbent upon the East Fork Fire Protection District and each employee to
8 provide as safe a working environment as possible. Safety is one of the most
9 serious considerations that must be addressed by the supervisor.

10
11 **Theory:** Safety is of paramount importance; therefore, safety rules and policies
12 must be closely monitored.

13
14 **Questions to Ask:** Supervisors must determine the following:

- 15
16
 - Does the employee's action result in a potential threat to the safety of other
 - 17 personnel or oneself?
 - 18 • Does the employee's absence result in a potential threat to the safety of
 - 19 personnel or operations?
 - 20 • Was there willful or intentional disregard for a safety rule or policy, which was
 - 21 known to the employee?

22
23 **Honesty**

24
25 Honesty and integrity are two of the most important characteristics of employees
26 who are given the trust of the public and their fellow employees and are therefore
27 taken very seriously.

28
29 **Theory:** A working environment where employees cannot be trusted is a
30 destructive one. Dishonesty or lack of integrity cannot be tolerated in any work
31 environment.

32
33 **Questions to Ask:** Supervisors should evaluate the following questions:

- 34
35
 - Does the infraction or explanation of the infraction involve dishonesty or
 - 36 untrue statements?
 - 37 • Is there sufficient evidence of dishonesty or witnesses who lead to doubt the
 - 38 employee's honesty?
 - 39 • Does the infraction involve theft, and is there sufficient proof of employee
 - 40 involvement?
 - 41 • Do the facts or evidence support the employee's account or explanation?

42
43
44
45 **Negative Impact**

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

Although all infractions impact day-to-day operations in one way or another, the supervisor must consider which of these presents an overall negative impact on the department. Negative impact relates to the districts inability to quickly recover from the costs or ramifications resulting from the employee's infraction.

Theory: Since the Fire District is a publicly funded, service-oriented organization; its operations are constantly scrutinized. Infractions, which result in undue costs or embarrassment to the department, are counterproductive to the success of the Fire District's overall mission.

Questions to Ask: The supervisor should evaluate the following items:

- Did the employee's actions have a negative impact on Fire District operations?
- Did the employee's actions cause the Fire District loss of time, undue cost, serious liability exposure, or potential liability?
- Does the action bring negative attention to the Fire District?

Once the above-mentioned items have been considered, the supervisor must determine the severity of the infraction. Was this a minor or major infraction?

A minor infraction is usually not severe, is temporary in nature, and does not result in undue cost or liability/potential liability to the Fire District.

A major infraction is usually severe, long lasting, or results in undue costs or liability/potential liability to the Fire District.

DISCIPLINARY ALGORITHM

* Injury, cost, damage to public image or negative impact on operations

** If intervention had not occurred the infraction could have caused bodily injury or high cost to the Fire District.

Disciplinary Action Steps

There are four progressive steps of disciplinary action in the Formal Process. They are:

Step 1: A Step 1 action places an employee on written notice by the supervisor that failure to correct a problem could lead to more serious discipline. This action has an active life span of 6 months.

Step 2: A Step 2 action involves a minimum of a written notice to a maximum of a one-half shift suspension without pay. A Step 2 is given when the action warrants more than a Step 1 action or when a Step 1 action is not available. This action has an active life span of 9 months.

Step 3: A Step 3 action involves a suspension. The suspension period will be a minimum of one work shift to a maximum of one workweek without pay (For 56-hour personnel, one work shift is 24 hours, one workweek is 56 hours. For 40-hour personnel, one work shift is 10 hours; one workweek is 40 hours). This action has an active life span of 12 months.

Step 4: A Step 4 involves a suspension but the suspension period will be one shift with pay. This action has an active life span of 12 months. This is the most serious disciplinary action in the EDPP process. Paid time away from work is provided to the employee so that he/she may decide on whether employment with the Fire District is in his/her best interest. Except in the most unusual circumstances, any additional formal discipline during the active period of a Step 4 will result in a termination hearing.

Disciplinary Decisions and Matrix Entry

Once the supervisors decide the level of discipline to be taken the action will be compared against the employee's disciplinary history and a determination will be made as to whether or not the action conforms to the discipline process and is consistent with previous decisions in similar circumstances.

All supervisors must remember that once a decision has been made to take formal disciplinary action, it must be able to stand up to scrutiny. Problems occur when:

1. There is insufficient evidence to support the action.
2. Procedures and legal requirements have been overlooked.
3. The case is unable to withstand counterpoints from the employee.
4. The action proposed is not consistent with previous decisions in similar circumstances.
5. The action proposed is unacceptable considering the employee's overall disciplinary history.

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

After the proposed action is confirmed a disciplinary meeting is held to inform the employee of the action. The action will be documented on the disciplinary form and in the matrix. The Battalion Chiefs will maintain the Matrix.

Note: Any discipline greater than a step 2 or resulting in suspension requires an administrative hearing prior to action being taken.

Common Questions Are:

- Are the three categories of problems (Conduct, Attendance, Performance) strictly independent of each other?
- Are we required to be strictly progressive in the application of discipline within each of these categories?

The answer to each question is no. The EDPP stresses that discipline be based upon the employee's overall success at meeting managerial expectations.

Rules, Matrix and Concepts

A few rules apply to the application of the different steps of discipline.

Rule #1: Disciplinary actions have active life spans. Active is defined as the total time period the disciplinary action weighs against the employee. The active life spans are:

Counseling: 6 months

Step 1:	6 months
Step 2:	9 months
Step 3:	12 months
Step 4:	12 months

For instance, if Employee X receives a Step 1 disciplinary action on January 1, 2022, it becomes inactive on June 30, 2022, 6 months from the date the action was imposed, providing no further problems occur during that 6-month period. If further problems do occur prior to June 30, 2022, the active life span shall be extended, as explained in Rule #2.

Rule #2: Active life spans are subject to **linking**. This is done to ensure that documentation of prior disciplinary actions, often considered a basis for more progressive disciplinary action, is not lost.

Continuing the example above, if Employee X were to receive a Step 2 disciplinary action for any offense on March 1, 2015, the active life span of the Step 1 already given is extended by the life span of the Step 2, or 9 months. The Step 1 and Step 2 actions will remain "active" until November 30, 2022 unless an

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

additional disciplinary action is imposed prior to November 30, 2022, which would extend both actions even further.

The EDPP is structured to prevent repetitive disciplinary action, which is counterproductive for both the employee and the Fire District.

Repetitive disciplinary actions are controlled by Rule #3, which limits the number of active actions in any step. This ensures that progressively more serious discipline is imposed, when necessary.

Rule #3: The total number of active actions in any given step is listed below. When these limits are exceeded, the action must move up to the next step.

Counseling: No more than 1 in each category.

Formal Actions:

Step 1: No more than 2 total

Step 2: No more than 2 total

Step 3: No more than 2 total

Step 4: No more than 1 total

For an example of how Rule #3 is to be applied, let's say that Employee X has been progressively disciplined for Attendance and Performance (see matrix below) and has yet to demonstrate a problem in the category of Conduct. Let's now say that Employee X develops a problem in the category of Conduct that must be dealt with. What Step(s) are available, considering the three rules above?

	CONDUCT	ATTENDANCE	PERFORMANCE
Counseling		X	X
Step 1		X	X
Step 2		X	
Step 3		X	
Step 4			

The answer is a bit unique. Employee X may be counseled or given a Step 2 or greater disciplinary action. The rules allow counseling in each category. However, the rules will not allow more than two Step 1 actions, which Employee X already has. Employee X has only one active Step 2 action, and is therefore eligible for one more to reach the maximum of two. Let's continue the example by stating that it has been decided that Employee X should receive a counseling session for the first problem in the category of Conduct. The option to impose a Step 2 action at this time is not being taken. The progression would then look like this:

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

	CONDUCT	ATTENDANCE	PERFORMANCE
Counseling	X	X	X
Step 1		X	X
Step 2		X	
Step 3		X	
Step 4			

As it now stands, Employee X has been counseled for problems in each category and has been progressively disciplined in the category of Attendance up to a Step 3 action. Employee X has also been progressively disciplined in the category of Performance up to a Step 1 action. Let's now say that Employee X again demonstrates a problem in the category of Conduct that must be addressed with discipline. What option is available?

Answer: Employee X is not eligible for a Step 1, but would automatically face at least a Step 2 for the Conduct problem. Rule #3 prevents three active Step 1 actions. This may not seem progressive in the category of Conduct, but the overall behavior is the defining criteria. The progression chart now looks like this:

	CONDUCT	ATTENDANCE	PERFORMANCE
Counseling	X	X	X
Step 1		X	X
Step 2	X	X	
Step 3		X	
Step 4			

To demonstrate how overall behavior is the focus of a successful program, let's demonstrate how Employee X can reach a Step 4 action in the category of Conduct without receiving a Step 3 action in that same category. Referring to the progression chart below, you will see that Employee X received an additional Step 3 action for a problem in the category of Performance, putting Employee X at the maximum number of Step 3 actions permitted (two). A Step 2 in Performance is not allowed under the rules since Step 2 actions are still active.

	CONDUCT	ATTENDANCE	PERFORMANCE
Counseling	X	X	X
Step 1		X	X
Step 2	X	X	
Step 3		X	X
Step 4			

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

When Employee X then demonstrates yet another problem in the category of Conduct, the supervisor is forced, when considering the rules, to impose a Step 4 action against Employee X. The progression chart below demonstrates that an employee can reach a Step 4 action in a category without having received all of the available progressively less serious actions.

	CONDUCT	ATTENDANCE	PERFORMANCE
Counseling	X	X	X
Step 1		X	X
Step 2	X	X	
Step 3		X	X
Step 4	X		

Why did Employee X receive a Step 4 action under the category of Conduct? Because the rules are designed to ensure that Employee X's overall disciplinary history is considered. There are significant disciplinary actions in Attendance and Performance (Step 3's) that demonstrate that Employee X, overall, is not taking adequate responsibility for correcting problems.

What does this really mean? It means that discipline may progress across categories. This is an essential component of a successful disciplinary program. When an employee is held accountable for his/her overall behavior, the employee is more likely to improve.

The example of Employee X is intended to demonstrate the progression of discipline. Absent in the example are the Investigative Interviews (defined earlier in this guide), Administrative Hearings, and the Disciplinary Meetings that are part of the process.

Administrative Hearings

Administrative Hearings will be scheduled whenever the event leading to disciplinary action is of such a nature that any resulting discipline may be greater than a Step 2 action or a suspension.

The Administrative Hearing is a formal meeting in which the employee is afforded the opportunity to provide an explanation directly to the District Fire Chief or designee regarding the event(s) leading to the proposed disciplinary action. The Administrative Hearing also allows the District Fire Chief or designee the opportunity to ask questions pertaining to the event(s).

The employee and Association will receive written notification of the hearing location, date, and time. Notification shall include the specific actions upon which discipline may be based and any corresponding policy or rule violation, if appropriate. The employee and Association will be afforded a minimum of seven

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

(7) calendar days from notification to prepare for the hearing, unless both parties mutually agree to meet at another date and time.

The employee may choose to respond in writing to the specified charges. If the employee responds in writing, the District Fire Chief or designee must receive the response no later than the date and time specified for the hearing. The employee may choose to appear in person and/or be represented by a Association representative.

Following the Administrative Hearing, a decision regarding the appropriate disciplinary action to be taken, if any, will be made by the District Fire Chief or designee. All decisions will be governed by rules of the Formal Process. The decision will be communicated to the employee and the Association within fifteen (15) calendar days after the Administrative Hearing, unless a different timeline is mutually agreed to. The decision is communicated during a Disciplinary Meeting by the District Fire Chief or designee.

Disciplinary Meetings

The immediate supervisor or Captain and Battalion Chief or the District Fire Chief or designee conducts Disciplinary Meetings after an Investigative Interview or Administrative Hearing to inform the employee and the Association of disciplinary action decisions. The Disciplinary Meeting is documented in Section II of the EFFPD Disciplinary Action Form. The nature of a Disciplinary Meeting is informational, as the necessary discussions and reviews have already been completed.

Supervisors should not allow Disciplinary Meetings to lead to debate. Employees who are not satisfied with the result of this meeting should be referred to the grievance article of the appropriate collective bargaining agreement. Supervisors should consider the following recommendations related to a Disciplinary Meeting:

Before the Meeting:

The supervisor shall notify the employee of their right to representation. Section II of the EFFPD Disciplinary Action Form must be completed with the following information:

1. Level of disciplinary action.
2. Date of infraction.
3. Date of the Administrative Hearing, if any.
4. Effective dates of the disciplinary actions.
5. Suggested corrective action(s).

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

During the Meeting:

1. Explain to the employee the level of disciplinary action to be taken.
2. State the specific problem in terms of **desired versus actual** conduct, attendance, or performance, and the changes expected.
3. Ask the employee to confirm understanding.
4. Indicate your confidence in the employee's ability to perform properly.
5. Secure signature(s) of the employee and/or witness(es) involved.

After the Meeting:

1. Distribute copies of the EFFPD Disciplinary Action Form, as noted on the form.
2. Monitor the employee's performance.

Documentation

All disciplinary actions above a counseling must be documented. Counseling sessions are maintained solely by the immediate supervisor and the employee. The Fire District disciplinary matrix will be updated by the Battalion Chief to reflect the counseling session. Step 1 through 4 actions are maintained within the Fire District disciplinary matrix, as well as in the employee's Human Resources file.

Purging Disciplinary Actions

Disciplinary actions may be purged from Human Resource files when:

- A written request is submitted to the Human Resources Director.
- All disciplinary action in a category will be removed when the active life span has been reached.

NOTE: The active life span of disciplinary actions and purge dates are extended by any leave that exceeds 30 consecutive calendar days, unless a written exemption is obtained from the District Fire Chief.

Termination

Termination is not discipline. Termination may result as a consequence of a one-time serious event but most often results from an employee's continued failure to accept responsibility for elimination of problems and/or failing to meet management expectations. Therefore, termination is considered solely as an administrative act separating an individual from City employment. The process of notifying the individual shall be accomplished in a manner conducive to good order and with respect for that person's dignity and privacy. The District Fire Chief or the designee will typically accomplish this.

Non-Supervisory Agreement Between the East Fork Fire Protection District and the East Fork Professional Fire Fighters' Association Local 3726

Note: In cases where serious discipline is indicated but termination may not be warranted, demotion may be considered.

Representation

Overview: During meetings, which are informal in nature, such as coaching and counseling sessions, the involvement of an employee representative is not required, though will be provided at the employee's request. During meetings that involve or may likely lead to any form of discipline, representation is an important component and will be offered to the employee.

Employee Rights: The supervisor shall notify the employee of his/her right to have Association representation present during any meeting that may result in any form of disciplinary action. If an employee requests that a Association representative be present, the supervisor must contact a Local 3726 Principal Officer or those persons authorized to act on behalf of the Association. If there are none available, the meeting shall be postponed until a representative is available. All East Fork Fire Protection District employees are protected by the "Garrity Rights" in any disciplinary process that may involve criminal activity. The Garrity Rights prohibit the use of statements gathered during an investigation in subsequent criminal proceedings. As stated under Preparing for an Investigative Interview, if any information suggests that the incident may be criminal in nature, the investigation or violation shall be immediately referred to the District Fire Chief or his designee.

During the Disciplinary Meetings: Supervisors should follow proper procedures whether an Association representative is present or not. If the employee or Association disagrees with the disciplinary action, a grievance can be filed and the situation reviewed through the grievance procedure. Informal actions and counseling are not subject to the grievance procedure. Steps One through Four are subject to the grievance procedure. The supervisor should not fail to take disciplinary action because of the possibility that the action may be grieved.
