5. For Possible Action. PUBLIC HEARING and possible adoption of Resolution 2022R-007 by which the District adopts regulations set forth in the International Fire Code and all model codes as adopted by the Nevada State Fire Marshal's Division through NRS 477 and NAC 477, as amended by the District, and under the authority granted to the District by NRS 474.160, effective upon passage. (Tod F. Carlini, District Fire Chief and Amy Ray, Deputy Chief/Fire Marshal) 45 minutes.

District Fire Chief Tod Carlini stated as part of the public hearing a short PowerPoint presentation will be shown on both the screens at the front and back of the room.

Below is the outline of the PowerPoint presentation regarding the East Fork Fire Protection District Fire Regulations Public Hearing presented by District Deputy Chief/Fire Marshal Amy Ray and Fire Inspector Patrick Mooneyhan:

Deputy Chief Ray started the presentation.

#### What the Regulations are

- Formal adoption by EFFPD of already established and adopted Codes by Douglas County and the Nevada State Fire Marshal
- Adoption of specific amendments relevant to the unique circumstances within EFFPD (i.e. firefighting water supplies in areas without an established water supply and response times)

#### What the Regulations are NOT

- They are NOT....
  - A residential fire sprinkler mandate
  - A direct challenge or attempt to undermine the authority of the Douglas County Commission adoption of Ordinance 2022-1604
  - Circumvention of Douglas County Code, Title 20
  - A means for the District to do a "cash grab" to buy new water tenders

#### Data - Since the Repeal of County Ordinance 2022-1604

- Between 08/18/2022 and 11/28/2022, 36 residential fire protection reviews were conducted
- Eight reviews were in areas within HOA governed subdivisions where residential sprinkler systems are required
- Of the remaining 28 reviews, eight homes would have been required to install residential fire sprinklers
- 20 of the homes reviewed DID NOT require a residential fire sprinkler system
- That's two per month during that time period

- With the adoption of Douglas County Code Ordinance (2022-1604), residential fire sprinkler systems are no longer required in residences less than 5,000 square feet and more than 1,000 feet from a fire hydrant, measured by distance of travel
- However, water supply for firefighting and site access are still required for all new homes and both still need to be submitted, evaluated, and approved by the East Fork Fire Protection District prior to any new structures being built on residential lots
- While the County requirements may have changed, the process has not

#### Fire District Authority

- The Fire District's authority is granted under several provisions of State Law, County Ordinance, and adopted Codes. They include:
  - NRS 474.160: Regulations for furnishing fire protection to the District
  - Title 20, Appendix B as adopted by Douglas County
  - The existing agreement with the Nevada State Fire Marshal Division
  - The provisions of the model codes as adopted by the State Fire Marshal Division under NRS 477.030 and NAC 477.281

#### Of particular note

- NRS 474.007- Activities of district are separate from activities of county and other political subdivisions
- The activities of a county fire protection district are separate from county activities and any other political subdivision in this State

Deputy Chief Ray stated NRS 474 gives the District the authority and requirement to adopt fire regulations.

Fire Inspector Patrick Mooneyhan continued the PowerPoint presentation.

#### 2018 International Fire Code

- [A] 102.5 Application of residential code. Where structures are designed and constructed in accordance with the International Residential Code, the provisions of this code shall apply as follows:
  - 1. Construction and design provisions of this code pertaining to the exterior of the structure shall apply including, but not limited to, premises identification, fire apparatus access and <u>water supplies</u>. Where interior or exterior systems or devices are installed, construction permits required by Section 105.7 shall apply
  - 2. Administrative, operational and maintenance provisions of this code shall apply

Water Requirements for residential structures

- 2018 IFC (Douglas County Code and NAC) requires water supply in accordance with 102.5 and Appendix B:
  - 0-3599 square foot: 1000 gallons per minute for 60 minutes = 60,000 gallons
  - 3600 and above: 1500 gallons per minute for 60 minutes = 90,000 gallons
- 2018 WUI (NAC) requires water supply in accordance with Chapter 4:
  - 0-3599 square foot: 1000 gallons per minute for 30 minutes = 30,000 gallons
  - 3600 and above: 1500 gallons per minute for 30 minutes = 45,000 gallons

#### Residential Water Supply Allowed Reductions

- 2018 IFC Appendix B:
  - o B103.3 Areas without water supply systems. For information regarding water supplies for fire-fighting purposes in rural and suburban areas in which adequate and reliable water supply systems do not exist, the fire code official is authorized to utilize NFPA 1142 or the International Wildland-Urban Interface Code

#### NFPA 1142 criteria

- Under NFPA 1142, eight criteria are established relative to an agency requiring systems. They include:
  - 1. Limited fire department resources
  - 2. Extended fire department response time or distance
  - 3. Potential for delayed discovery of the fire
  - 4. Limited access
  - 5. Hazardous vegetation
  - 6. Structural attachments, such as decks and porches
  - 7. Unusual terrain
  - 8. Special uses and unusual occupancies
- The authority having jurisdiction shall be permitted to specify how the water supplies required in this document are provided, considering local conditions and need

#### NFPA 1142 Water Requirements in Rural Areas

- The International Fire Code and NFPA have requirements for submittal to EFFPD for a Residential Fire Protection Audit to determine water supply based on NAC 477, IFC 102.5 and B103.3
  - Water supply for residential construction, in accordance with the requirements of Section 102.5 (1), shall be calculated in accordance with NFPA 1142
  - NFPA 1142 water supply calculations are based on the volume calculation of the total building area (that is everything under a

- roof; including garages, covered entry and covered patios), construction type and additional buildings within 50 feet
- All residential plan submittals shall include the explanatory calculations, for verification, in accordance with Chapter 4

Fire Inspector Mooneyhan explained, rather than having a static water supply with a baseline number, this gives an overall picture of what amount of water is needed to put a fire out should the entire structure be compromised.

Deputy Chief Ray continued the PowerPoint presentation.

#### Regulation options

- For properties in areas without an established water system, homeowners have the following options:
  - Option 1:
    - Voluntary installation of an approved residential fire sprinkler system
  - Option 2:
    - Installation and maintenance of a water tank and devices installed in accordance with the National Fire Protection Association Standards 1142 and 22
    - A Household Fire Alarm System in compliance with NFPA 72 shall be installed
  - Option 3:
    - A one-time fee for service shall be paid to the East Fork Fire Protection District when choosing the Water Supply Initiative
    - A Household Fire Alarm System in compliance with NFPA 72 shall be installed

#### Water Supply Initiative Fees

Required Fire Flow to a project site:	Fee:
• 0-5,000 gallons	\$5,000
• 5,001-7,500 gallons	\$7,500
• 7,501-10,000 gallons	\$10,000
• 10,001 gallons and greater	\$15,000

#### Homes 5000 Square Feet and larger

- The District's proposed regulations and existing Douglas County Code, Title 20, homes with greater than 5,000 square feet shall require a National Fire Protection Association 13-D residential fire sprinkler system. (Nothing new here)
- Title 20, IBC Section 901.8 defines the building area as:
  - 901.8.8 Total building area is defined for the purpose of this section as the total floor area in square feet for all floor levels

within the exterior walls, or under the horizontal projection of the roof of a building

#### Public Outreach and Collaboration Effort

- Four meetings with Douglas County Community Development
- Three meetings with Tahoe Douglas Fire Protection District
- Six consultations with the Nevada State Fire Marshal's Office
- One meeting with insurance agents
- One meeting with the designers, engineers, builders
- Community outreach through media plus published Op-Ed
- Two public outreach and information meetings
- Three presentations to the East Fork Fire District Fire Board
- One public hearing (today) with possible adoption

District Fire Chief Tod Carlini stated the PowerPoint presentation is an overview including the options built into the regulations to address the water supply issue. There has been a lot of effort in trying to reach out to the public and designers. Douglas County Community Development has been included in the process from the beginning and thanked Tom Dallaire and his staff for their participation. He thanked Tahoe Douglas Fire Protection District and stated their regulations are not much different than the regulations East Fork Fire is looking to adopt. His recommendation is to adopt the regulations.

Director Mike Sommers stated upon the adoption of the regulations and the coordination with getting it out into the fire prevention review approvals, where is the District with the void between when the fire ordinance was rescinded by the County, and today, if the resolution is adopted. Are any projects at an inbetween stage?

District Fire Chief Carlini explained those projects would fall under the 1142 standard and the project would be based on that.

Director Sommers asked if there are any outstanding projects that need to be notified and inform them they are not in current regulation status.

Deputy Chief Ray stated there was one applicant that was not aware of the regulations moving forward. All other projects are aware of the regulations.

Director Sommers asked if any of the current applications that have not been finalized are not in accordance with the fire regulations.

Deputy Chief Ray stated current applications all are within the fire regulations.

President Jacques Etchegoyhen opened up public comment.

Patti Graf, a resident, stated she went to the Douglas County Commission meeting in June and was informed, homes under 5,000 square feet can be granted an exemption. She applied for an exemption because she has a HUD (Department of Housing and Urban Development) manufactured home and paid \$30,000 for a WUI (Wildland Urban Interface) package. She was told by the Planning Department that she could file an exemption. She stated during the BOCC meeting it was voted that anything under 5,000 square feet could become exempt. She explained because of the BOCC vote on exemptions her application was not heard, therefore she did not receive an exemption. What legal right does the fire department have to overrule the BOCC vote?

Ms. Graf said she understands that at first a resident would need to install a 35,000-45,000-gallon water tank. She researched the size of a tank that holds that much water and it's very large but now the discussion is regarding charging an additional fee for water tenders. She believes that cost is already included in the homeowner's property taxes. She explained her situation and feels everyone has put her off and now she is in jeopardy of losing money on her HUD home. She feels she was misled and informed she could get fire sprinklers for \$5,000. She can't get a quote under \$35,000 to add fire sprinklers in a 2,000 square foot HUD home. What happens if there is a power outage. The costs keep adding up. If she can't get an exemption, the only other option is to file a lawsuit.

Terry Taylor, a resident, is encouraging fire sprinklers be adopted and asks the Board to also adopt the WUI code today. He knows we are not prepared to deal with the WUI code but by adopting it, it is giving notice to everyone. There is still a lot that needs to be done to properly adopt the WUI code. East Fork Fire is one of the only entities in the surrounding areas that has not adopted the WUI code. He has been lobbying to standardize things.

Mr. Taylor stated he was here when the District was sued for accepting a water tender and lost because a water tender is not fire protection by definition. He is concerned about the water tender issue.

Mr. Taylor understands the regulations are a difficult thing the District is doing but discussion has gone on long enough and it is important this gets adopted now and get started on the WUI code.

Dave Ruben, a longtime Johnson Lane resident and retired fire service, stated he agrees with Mr. Taylor. He appreciates the Board considering adopting the WUI code and the International Fire Code amendments. He said there has been a lot of discussion focused on access and water supply but would like to talk about Chapter 5 (construction materials) in the WUI code. The State adoption of the WUI code applies to the District, regardless if it's specifically adopted or not because of the State Fire Marshal's Office regulations in rural counties. The WUI code does not go in effect until WUI areas are specifically identified, even though the code is enforced by State adoption. The District has not identified the WUI areas but understands Deputy Chief Ray is working on that with the CWPP.

He is in the process of getting the community he lives in signed up to be Fire Wise. NDF did a risk assessment. The risk assessment is broken down into three areas. He discussed the three areas.

Mr. Ruben encouraged the Board to adopt the regulations and WUI code. He was involved in the State adoption and the State did not adopt Chapter 5 in 2018 because they wanted to leave it up to the local jurisdictions. He would like President Etchegoyhen to address, on record at this meeting, why Chapter 5 is not being adopted at this time and if there is a plan moving forward to adopt it at a later date.

Kris Rowlett, Tahoe Douglas Fire Inspector stated Tahoe Douglas Fire and East Fork Fire are working together on the regulations and TDF plans to move it forward in the first quarter of 2023.

Ms. Graf stated the home she is trying to build is next to Country Lane Estates, there are no trees on her property and even though she is getting the WUI package, it was not necessary.

There was no further public comment.

Public comment closed.

President Etchegoyhen clarified with Legal Counsel Mark Forsberg, the WUI code can be discussed but no action can be taken because it is not part of the agenda item.

Legal Counsel Forsberg stated that is correct.

President Etchegoyhen stated it will be added to a future agenda if the Board desires.

Mr. Ruben stated the WUI code is in the amendment package.

Deputy Chief Ray stated portions of the WUI code are adopted by the State Fire Marshal's Office. The requirements in Chapter 5 are not included because it is not part of the State adoption, so the District needs to adopt that portion individually.

President Jacques Etchegoyhen again opened up public comment.

There was no further public comment.

Director John Bellona said he would like to make the motion as written. It has been talked about and it's the right thing to do.

Director Sommers stated he would like to expand on the motion. He would like staff to continue to review additional regulations that might be needed, including Chapter 5 of the WUI, and bring that back to the Board for possible adoption.

Director Bellona confirmed this part can be adopted.

Director Sommers stated that is correct.

MOTION to approve the adoption of Resolution 2022R-007 by which the District adopts regulations set forth in the International Fire Code and all model codes as adopted by the Nevada State Fire Marshal's Division through NRS 477 and NAC 477, as amended by the District, and under the authority granted to the District by NRS 474.160, effective upon passage.

6. For Possible Action. Discussion and possible action to authorize the formal solicitation of bids for the construction of a training prop at Station 14, 1699 County Road, Minden, Nevada. (Tod F. Carlini, District Fire Chief) 10 minutes.

District Fire Chief Tod Carlini stated the training prop will be constructed behind Station 14. It is time for formal solicitation of bids for this project. This project has been in the process for over 3 years. There has been a pause because of COVID and revenue concerns. The project is now at the building

permit phase but the first thing that needs to be done is formal solicitation of bids. The bids will come back to the Board for approval of an award.

Director Mike Sommers asked if the District has received some of the materials for the training prop.

District Fire Chief Carlini stated some materials have been purchased.

President Etchegoyhen opened up public comment.

7. For Possible Action. Discussion and possible action on the adoption of Resolution 2022R-008, which augments the fiscal year 2022-2023 budget for \$1,705,904 to the General Fund and \$25,588 to the Emergency Fund in order to appropriate and amend the opening fund balance based on prior year audit results and previously unbudgeted resources. (Tod F. Carlini, District Fire Chief and Kathy Lewis, CPA, CFO/Director of Finance) 30 minutes.

District Fire Chief Tod Carlini stated as part of the augmentation a short PowerPoint presentation will be shown on both the screens at the front and back of the room.

Below is the outline of the PowerPoint presentation presented by District Fire Chief Carlini and Director of Finance Kathy Lewis:

Director of Finance Lewis started the presentation.

#### Purpose of Augmentations:

• Nevada Revised Statutes (NRS) 354.598005 allows for and provides guidelines for local governments to augment their budgets if anticipated

resources actually available during the budget period exceed those estimated.

- Typically, staff brings augmentations before the Board two or three times a year for such things as bringing forward a budget for already approved purchase orders and projects from the prior fiscal year; amending the opening fund balance based on prior year audit results; and, to augment additional revenue and deferred funds, such as payments for wildland fire responses.
- This is the first augmentation for the 2022-2023 fiscal year. This augmentation is to amend the budget and opening fund balance based on the prior year audit results and to augment additional revenues received and seek approval for reinforcing certain line items and for additional expenditures, usually as a "one time" purchase. This augmentation also transfers funds to the Emergency Fund, increases the ending fund balance, and pays down one year of debt service.

Director of Finance Lewis stated the augmentation also includes the fire billings.

District Fire Chief Carlini continued the presentation.

Goals of December 2022 Augment:

- Fund the FY23/24 loss of the Emergency Management Contract revenue
- Provide additional funding to supplement AFG Grant for SCBA's
- Start to address increase in PERS contribution rates effective July, 2023
- Pay additional principal payment towards outstanding debt
- Continue to contribute to Emergency Fund
- Address expenditures that have increased in cost since the budget was adopted
- Increase budget for planned Training Center
- Replace Fire Shelters ahead of Fire Season (Safety and Compliance)

Director of Finance Lewis continued the presentation.

#### General Fund Augmented Revenues:

• Chart was shown (included in the backup information) outlining the general fund augmented revenues

#### General Fund Augmented Expenditures:

• Chart was shown (included in the backup information) outlining the general fund augmented expenditures

Director of Finance Lewis stated almost 50% of the augment applies to things that have already taken place.

Outstanding Debt Reduction:

- With Payment of \$148,000 in Principal
  - The District reduced the outstanding debt obligation by another 6 months!
    - The District is currently schedule to pay-off debt a year and half sooner than originally planned
  - The District will save an additional \$8,258.40 in interest
    - With the extra payments, the amount saved for the District is \$27,881.40 in interest in total.

By making an extra payment, the debt will be paid off October 1, 2025, instead of April 1, 2027.

Director Mike Sommers asked what the interest rate is between this bond and the District's investments.

Director of Finance Lewis does not know, but will look into it and let him know.

#### Emergency Fund Augmentation:

• With transfer of \$25,000 from General Fund and Adjusting Beginning Fund Balance, the new balance in the Emergency Fund is \$326,431.

Director of Finance Lewis stated the board packet includes a detailed budget, state forms required that are sent to the State and proof of publication.

Director Sommers asked if doing this augmentation now is a little premature.

Director of Finance Lewis stated there has been discussion on the appropriate time to do the augmentation and the nice thing about doing the augmentations at the 6-month and 11-month is that it sets things up for the start of the budget. She would not feel comfortable augmenting the state consolidated tax at this time.

Director Sommers stated he wouldn't feel comfortable either, that is why he is suggesting on waiting until farther down the road. He suggested doing 1 augmentation at the 11-month instead of doing 2 augmentations.

Director of Finance Lewis feels it makes things clearer and more upfront to present two augmentations.

District Fire Chief Carlini feels doing an augmentation every 6 months gives a clear picture. An amount was added to the contingency fund this time, which gives a buffer for unseen issues that may arise.

Director Sommers asked District Fire Chief Carlini if the augmentation is more of an informative cushion.

District Fire Chief Carlini stated yes, and it takes the budget up-to-date in terms to where the District stands at 6 months.

Director Barbara Griffin said she likes the augmentation being done every 6 months. She feels it provides a clearer picture.

President Jacques Etchegoyhen opened up public comment.

The East Fork Fire Protection District is one of five entities that receives emergency dispatch and communications services from Douglas County. Over Ron's long tenure with Douglas County, he has continually strived to make the 911 Center a stellar example of an emergency call and dispatch center. Perhaps his ultimate achievement came with being recognized as an Emergency Fire Dispatch Center of Excellence on March 17, 2017, by the Board of Accreditation of the International Academies of Emergency Dispatch (IAED), the first in the State of Nevada and the 36th such center in the world. They are also the first dual accredited Fire and Medical center in Nevada. Mr. Sagen has always approached his job with a "can do" attitude and has been the ultimate "team player". His retirement will leave a void in leadership and institutional knowledge and will be difficult to replace. We want to thank Ron Sagen for his lifelong commitment to emergency services communication and for all his amazing contributions over the years. We wish him a happy retirement.

7. <u>Background Information</u>: The attached report reflects the state consolidated taxes collected for Douglas County and the distributed share to the District. Monthly, the state collects, consolidates and distributes 6 different taxes to each county and each appropriate district within that county. In FY22/23, Douglas became a non-guaranteed county. This means the Supplemental City-County Relief Tax (SCCRT) distributed to Douglas County entities will be based on actual collections and not a guaranteed amount. A chart has been included showing the historical fluctuations of the SCCRT for non-guaranteed counties.

The six consolidated taxes are as follows:

- <u>BCCRT</u> Basic City County Relief Tax, 1/2% of statewide sales/use tax. Distributed to the county where the sale was made. For out-of-state companies, BCCRT is distributed based on population.
- <u>SCCRT</u> Supplemental City-County Relief Tax, 1.75% of statewide sales/use tax. Total distribution is proportionate to the amount of in-state collections as a whole, after guaranteed counties have received their allocation.
- Cigarette Collected statewide and distributed to counties based on population.
- <u>Liquor</u> Collected statewide and distributed to counties based on population.
- <u>RPTT</u> Real Property Transfer Tax, tax based on value of real property transfers and distributed to county of origin.
- <u>GST</u> Government Services Tax, tax based on value of motor vehicle and distributed to county of origin.

**Background Information:** The District enters into interlocal agreements with various agencies that neighbor or borders us. The agreement allows for reciprocal services while addressing cost reimbursement and liability issues for both parties. The agreement is valid for a five-year period. Each year, updates are produced by staff to include any changes within the limits of the agreement, to reduce the need to bring the agreement back to the Board. This annual agreement is known as the operating plan. This document is normally signed by the District Chiefs of the respective organizations. This agreement is with Mono County for their oversight of the Mono County Paramedics. While these agreements normally reference fire protection, Mono County does not provide fire protection services but does provide for emergency medical services. It will enable us to provide mutual aid to one another with rescue ambulances.

7. **Background Information:** Since the formation of the District and the advent of informational technology application, the East Fork Fire Protection District has either by direct cost allocation or most recently by service contract, received IT services from Douglas County. Overtime, the County has made improvements to the system that we rely on, however, there are still numerous challenges due to the location of our Stations and the needs that exist with a public safety agency and 24-hour operations. Douglas County IT has been able to inventory all our devices and locations this past year, a success that we have never been able to achieve. The current five-year contract for service will expire on June 30, 2023. The District has received varying levels of service over the years with all of the challenge one would expect with a third-party service. The District standing up its own IT department and providing the necessary infrastructure and staff is not feasible. A service contract with a third-party provider remains the most feasible option. Over the years, the District has considered service providers others than Douglas County. There have been no less than three such considerations over the years. Infrastructure needs and costs have always been the determinant to retain county services as other providers could not provide the necessary infrastructure. With technology advances and cloud-based hosting, the opportunity to seriously consider alternatives now exists. In our effort to evaluate our options and recognizing our long history with Douglas County IT Services we solicited a proposal from Douglas County. A draft service Agreement is attached which includes costs for service. We also have solicited a proposal from Conway Communications. A Conway draft service contract, scope of work, and cost is also included. Both proposals offer five (5) year plans. The Conway proposal also includes phone services. A complete analysis has been conducted, including a cost analysis over the next five years. Deputy Chief Goss and Director of Financial Services, Kathy Lewis, have prepared the presentation. The administration is seeking the Board's input and direction based on staff recommendations. If the desire is to pursue the proposal submitted by Conway Communications, sufficient time will be necessary to transition services. The current Douglas County contract did not include phone services. When the District separated from Douglas County, it was necessary to

secure separate telephone services per Douglas County's request at that time. The District contracted with Frontier Communications for those services. Since that time, our phone system is now out of warranty. We have had to contract with Conway Communications to provide maintenance service on the system.

The purpose of the agenda item is to present information to the Board regarding the IT needs of the District, to provide overviews of the services available, to review contract options, and to present the fiscal impacts. We are seeking input from the board and official direction based on the proposals and presentation. Neither contract for service is ready for official consideration. Our goal, based on Board direction, would be to bring this item back in February for a final decision.

## EAST FORK FIRE PROTECTION DISTRICT 1694 COUNTY ROAD MNDEN, NV 89423

This Interlocal Contract for Technology Services ("Contract") is entered into by and between Douglas County, a political subdivision of the State of Nevada (the "County"), and East Fork Fire Protection District, a fire protection district formed pursuant to Nevada Revised Statutes Chapter 474 ("East Fork"). The County and East Fork are at times collectively referred to hereinafter as the "Parties" or individually as the "Party."

WHEREAS, County and East Fork are public agencies as defined by NRS 277.100 and are authorized pursuant to the Interlocal Cooperation Act (NRS 277.080 through 277.180) to enter into contracts with other public agencies to perform any governmental service, activity or undertaking which any of the contracting agencies is authorized by law to perform and to provide for the efficient joint use of the personnel and resources; and

WHEREAS, the stated purpose of the Interlocal Cooperation Act is to permit local governments to make the most efficient use of their powers by enabling them to cooperate with other public agencies on a basis of mutual advantage and thereby to provide services and facilities in a manner and pursuant to forms of governmental organization which will best accord with geographic, economic, population and other factors influencing the needs and development of local communities; and

WHEREAS, the County believes it is beneficial to develop interlocal contracts that will increase efficiencies, fiscal accountability, and preserve the historic, cultural and natural resources of Douglas County; and

WHEREAS, County has a Technology Service Department which provides an array of services, employees, and resources for technology guidance, planning, development, coordination and support of the County's use of information technologies and enterprise data systems; and

WHEREAS, the Parties do foresee that a public agency will be required to expend more than \$25,000 to carry out the terms of this Contract;

WHEREAS, East Fork has a need for the technology services to support its public safety operations and currently obtains these services from the County Technology Service Department and desires to continue receiving these services for payment as formally described herein; and

WHEREAS, County represents that it is duly qualified, equipped, staffed, competent, ready, willing and able to perform the services required.

Now, THEREFORE, in consideration of the mutual promises and covenants herein made, the County and East Fork mutually agree as follows:

- 1. TERM AND EFFECTIVE DATE OF CONTRACT. The term of this Contract shall commence upon July 1, 2023 ("Effective Date"), and shall remain in effect for twelve (12) months, expiring on June 30, 2024. To ensure continuous service, the parties agree that this Contract will be automatically renewed for four successive twelve (12) month periods, unless either party provides the other with written notice of its intent to cancel renewal at least 120 days, but no more than 150 days, before the start of the next renewal period. This Contract shall not automatically renew after June 30, 2028.
- 2. SERVICES PROVIDED BY COUNTY. The County, by and through its Technology Services Department, will offer and provide technology services to East Fork to include service desk support, network services, Microsoft 365 administration, and associated application support services.
- 3. PAYMENT FOR SERVICES. During the initial term of this Contract, the price for services as stated in this Contract is an annual fee ("Annual Fee") of One Hundred and Sixty Thousand Dollars (\$160,000.00). The Annual Fee will become due in four separate installments of approximately equal value. The County will invoice East fork for the first, second, third and fourth installments in July, October, January and April, respectively. Payment is due thirty (30) days after the date of the invoice. The County reserves the right to charge interest at the highest rate allowed by law on overdue payments.

East Fork will not be entitled to any adjustment to the Annual Fee as a result of any interruption in service. The County does not warrant or guarantee that the service will be uninterrupted or error-free. East Fork will have the option to terminate the contract for cause if there is a major, persistent outage that continues for seven (7) continuous calendar days during the term of this Contract, provided however that in order to exercise the right to terminate for cause under this paragraph, East Fork must provide the County with notice of the interruption in service within one (1) calendar day of the day on which the interruption

begins. Termination for cause as explicitly set forth herein shall be East Fork's sole remedy with respect to interruptions of service.

- 4. ANNUAL PRICE ADJUSTMENTS. Because the cost to provide technology services may increase over time, the County reserves the right to adjust the annual fee. The Annual Fee for any renewal period shall not exceed 105% of the annual fee charged during the preceding period. The County's failure to increase rates during one renewal period, does not constitute a waiver by the County to increase rates during any subsequent renewal period.
- 5. TERMINATION OF CONTRACT. Should either Party believe the other Party has defaulted or breached its obligations; the non-defaulting Party must give written notice of the default and allow the other Party to cure the default within 30 days of said notice. If a Party has defaulted and fails to cure such default within the 30-day period, the other Party may provide notice of intent to terminate, which will become effective upon receipt by the defaulting party.
- DOUGLAS COUNTY SUPPLIED EQUIPMENT. It is East Fork's obligation, and at its sole expense, to provide for space, infrastructure, electricity, back-up power, security, and climate control for any equipment the County installs upon East Fork's property ("Supplied Equipment"). The County will, in its sole discretion, determine which (if any) equipment is necessary for the purpose of providing the services agreed upon by the Parties. East Fork will be responsible for providing and maintaining, at its own expense, the proper environment for all Supplied Equipment. In the event East Fork fails to do so, East Fork shall reimburse the County for the actual cost of repairing or replacing any of the Supplied Equipment damaged or destroyed as a result of East Fork's failure. Except as otherwise agreed, title to all of County's Supplied Equipment shall remain with Douglas County. The County will provide and maintain the Supplied Equipment in good working order. East Fork shall not, and shall not permit others to, rearrange, disconnect, remove, attempt to repair, or otherwise tamper with any of the Supplied Equipment without the prior written consent of the County. The Supplied Equipment shall not be used for any purpose other than that for which the County provides. East Fork shall not take any action that causes the imposition of any lien or encumbrance on County's Supplied Equipment. In no event will the County be liable to East Fork or any other person for interruption of Service or for any other loss, cost or damage caused or related to improper use or maintenance of the Supplied Equipment by East Fork or third parties provided access to the Supplied Equipment by East Fork in violation of these Terms. East Fork shall reimburse the County for any damages incurred as a result thereof. East Fork agrees, which contract shall survive the expiration, termination or cancellation of this Contract, to allow the County to remove County's Supplied Equipment from the East Fork's Premises after termination, expiration or cancellation of the term of this Contract; or during the Term, for repair, replacement or otherwise as the County may determine is necessary or desirable, but the County will use commercially reasonable efforts to minimize disruptions to the Service caused thereby.

The Parties agree and understand that East Fork may supply equipment, which may be used by the County to assist in providing the services under this Contract. If any equipment which has been supplied by East Fork becomes unserviceable or, in the County's opinion is otherwise unusable, the County may elect to discontinue using the East Fork equipment and supply its own equipment for use instead. Any such equipment supplied by the County will be considered "Supplied Equipment," as described above. The County shall not be responsible for any loss associated with the damage, destruction, or other reduction in value of equipment supplied by East Fork unless such loss is as a result of intentional, reckless or grossly negligent acts by the County. If the County elects to discontinue using any Fork-supplied equipment, the County will remit the East Fork-supplied equipment to East Fork for disposition.

- 7. ACCESS TO PREMISES. As a condition to the County's obligation to provide and maintain service under this Contract, East Fork shall provide County access to East Fork's premises for the installation, inspection and scheduled or emergency maintenance of Supplied Equipment. Except on an Emergency basis, the County shall provide East Fork with 24 hours prior notice that it requires access to the premises. East Fork will provide a safe place to work and will comply with all laws and regulations regarding the working conditions at East Fork's premises.
- 8. LIABILITY. Neither party shall be liable to the other for any indirect, incidental, special, consequential, exemplary or punitive damages, including but not limited to damages for lost profits, lost revenues, or the cost of purchasing replacement services arising out of the performance or failure to perform under the contract regardless of the foreseeability thereof even if the party has been advised or should have known of the possibility of such damages.
- 9. DISCLAIMER OF WARRANTIES. The warranties and remedies set forth in this Contract constitute the only warranties and remedies with respect to the Services provided. Such warranties are in lieu of all other warranties, written or oral, statutory, express or implied, including without limitation, the warranty of merchantability and the warranty of fitness for a particular purpose or use. The County does not warrant that the services provided under this Contract will be uninterrupted or error-free.
- 10. CONSTRUCTION OF CONTRACT. The Contract will be construed and interpreted according to the laws of the State of Nevada. There will be no presumption for or against the drafter in interpreting or enforcing the Contract. In the event a dispute arises between the Parties, the Parties promise and agree to first meet and confer to resolve any dispute. If such meeting does not resolve the dispute, then the Parties agree to mediate any dispute arising from or relating to the Contract before an independent mediator mutually agreed to by the Parties. The fee, rate or charge of the mediator will be shared equally by the Parties, who will otherwise be responsible for their own attorney's fees and costs. If mediation is unsuccessful, litigation may only proceed before a department of the Ninth Judicial Court

of the State of Nevada in and for the County of Douglas that was not involved in the mediation process and attorney's fees and costs will be awarded to the prevailing party at the discretion of the court. The Parties mutually agree to not seek punitive damages.

- 11. ASSIGNMENT. Neither Party will assign, transfer nor delegate any rights, obligations or duties under this Contract without the prior written consent of the other Party.
- 12. COMPLIANCE WITH APPLICABLE LAWS. The Parties promise and agree to fully and completely comply with all applicable local, state and federal laws, regulations, orders, or requirements of any sort in carrying out the obligations of the Contract, including, but not limited to, all federal, state, and local accounting procedures and requirements, all hazardous materials regulations, and all building codes, rules, and regulations. The Parties will not waive and intend to assert all immunity and liability limitations available under NRS Chapter 41.
- 13. INSPECTION OF RECORDS. The books, records, documents and accounting procedures and practices of each Party related to the Contract will be subject to inspection, examination and audit by the other Party, including, but not limited to, the agreeing agency, the County Manager, the District Attorney, the East Fork Chief, East Fork Accountant, East Fork Counsel and, if applicable, the Comptroller General of the United States, or any authorized representative of those entities.
- 14. PUBLIC RECORDS LAW. The Parties expressly understand and agree that all documents submitted, filed, or deposited by one Party with the other Party, unless designated as confidential by a specific statute of the State of Nevada, will be treated as public records pursuant to NRS Chapter 239 and shall be available for inspection and copying by any person, as defined in NRS 0.039, or any governmental entity. The Parties expressly and indefinitely waive all of their rights to bring an action, including but not limited to, by way complaint, interpleader, intervention, or any third party practice, asserting any claims, demands, suits, actions, judgments, or executions, for damages or any other relief, in any administrative or judicial forum, against the other Party or any of its officers or employees, in either their official or individual capacity, for violations of or infringement of the copyright laws of the United States or of any other nation.
- 15. INDEMNIFICATION. To the fullest extent permitted by law, each Party shall indemnify, hold harmless and defend the other from and against all liability, claims, actions, damages, losses, and expenses, including, without limitation, reasonable attorneys' fees and costs, arising out of any alleged negligent or willful acts or omissions of the indemnifying party, its officers, employees and agents. Each party will defend, hold harmless and/or indemnify the other against such claims. Notwithstanding the obligation to defend as set forth in this paragraph, the defended party may elect to participate in the defense of any claim brought against that party because of the conduct of the defending party, its officers, employees and agents. Such participation shall be at the defended party's own expense and the

defended party shall be responsible for the payment of its own attorney's fees it incurs in participating in its own defense.

- 16. MODIFICATION OF CONTRACT. The Contract constitutes the entire contract and understanding between the Parties and may only be modified by a written amendment approved by the governing body of both Parties and signed by their authorized representatives.
- 17. AUTHORITY. The Parties represent and warrant that they have the authority to enter into this Contract.
- 18. WAIVER OF LIEN. East Fork understands and agrees the services the County will render to the County are not intended for the improvement of real property or to otherwise grant any rights to East Fork pursuant to NRS chapter 108.
- 19. FORCE MAJEURE. No Party to this Contract shall be considered to be in default in the performance of any obligations under this Contract when a failure of performance shall be due to uncontrollable forces. The Term "uncontrollable force" shall mean any cause beyond the control of the Party unable to perform such obligation, including but not limited to failure or threat of failure of facilities, flood, earthquake, storm, fire, lightning, and other natural catastrophes, epidemic, war, civil disturbance or disobedience, strike, sabotage, restraint by order of a court or regulatory body or agency of competent jurisdiction, and any non-action by, or failure to obtain the necessary authorization or approvals from a Federal governmental agency or authority, which by the exercise of due diligence and foresight such Party could not reasonably have been expected to overcome. Nothing contained herein shall be construed to require a Party to settle any strike or labor dispute in which it is involved or accede to claims or conditions which it believes to be adverse to its business or other interests.
- 20. THIRD PARTY BENEFICIARY. Nothing contained in this Contract is intended to convey any rights or to create a contractual relationship with any third party, or to otherwise allow a third party to assert a cause of action against either East Fork or County.
- 21. NOTICES. All notices, requests, demands and other communications hereunder must be in writing and will be deemed delivered when sent via certified mail, return receipt requested or by commercial courier, provided the courier's regular business is delivery service and provided further that it guarantees delivery to the addressee by the end of the next business day following the courier's receipt from the sender, addressed as follows (or any other address that the Party to be notified may have designated to the sender by like notice):

Unless an integrated attachment to this Contract specifically displays a mutual intent to amend a particular part of this Contract, general conflicts in language between any such attachment and this Contract shall be construed consistent with the terms of this Contract. Unless otherwise expressly authorized by the terms of this Contract, no modification or amendment to this Contract shall be binding upon the Parties unless the same is in writing and signed by the respective Parties hereto.

- 4.2 If Service Provider's performance of its obligations under this Agreement is prevented or delayed by any act or omission of Customer or its agents, subcontractors, consultants, or employees, Service Provider shall not be deemed in breach of its obligations under this Agreement or otherwise liable for any costs, charges, or losses sustained or incurred by Customer, in each case, to the extent arising directly or indirectly from such prevention or delay.
- 4.3 Without limiting the generality of the foregoing, Customer agrees and understand that it alone, and not Service Provider, is responsible for Customer's own compliance with all Laws, including all confidentiality and security requirements, and any and all such requirements of the HIPAA, Gramm-Leach-Bliley Act, USA Patriot Act (along with all network rules applicable to VISA, MasterCard, Discover, and/or other networks). Unless otherwise expressly stated in a SOW, the Services are not intended, and will not be used, to bring Customer into full regulatory compliance with any Law, rule, regulation, or requirement that may be applicable to Customer's business or operations. Depending on the Services provided, the Services may aid Customer's efforts to fulfill regulatory compliance; however, the Services are not (and should not be used as) a compliance solution.

- 4.4 Customer warrants and represents that Customer knows of no Law governing Customer's business that would impede or restrict Service Provider's provision of the Services, or that would require Service Provider to register with, or report Service Provider's provision of the Services (or the results thereof), to any government or regulatory authority. Customer agrees to promptly notify Service Provider if Customer becomes subject to any of the foregoing which, in Service Provider discretion, may require a modification to the scope or pricing of the Services. Similarly, if Customer is subject to responsibilities under any applicable Law (including, but not limited to, HIPAA, Gramm-Leach-Bliley Act, and USA Patriot Act), then Customer agrees to identify to Service Provider any data or information subject to protection under that Law prior to providing such information to Service Provider or, as applicable, prior to giving Service Provider access to such information.
- 4.5 Customer understands and agrees that data loss or network failures in its Environment may occur, whether or not foreseeable. In order to reduce the likelihood of a network failure, Customer must maintain proper security for its computer and information systems, including Updates. Customer will adhere to Updates and maintain specific security standards, policies, procedures set forth by the NIST Cybersecurity Framework available at <a href="https://www.nist.gov/cyberframework">https://www.nist.gov/cyberframework</a>. It is understood that within the Services provided it is not the intent for Service Provider to provide any type of internet security monitoring, cyber security monitoring, cyber terrorism monitoring, or other cyber threats for Customer unless otherwise expressly specified in a Scope of Work.
- 4.6 Customer understands and agrees that no security solution is one hundred percent effective, and any security paradigm may be circumvented and/or rendered ineffective by certain malware, such as certain ransomware or rootkits that were unknown to the malware prevention industry at the time of infection, and/or which are downloaded or installed into the Environment. Service Provider does not warrant or guarantee that all malware or malicious activity will be capable of being detected, avoided, quarantined, or removed, or that any data deleted, corrupted, or encrypted by such malware ("Impacted Data") will be recoverable. Unless otherwise expressly stated in an SOW, the recovery of Impacted Data is out-of-scope and not included in the Services. Moreover, unless expressly stated in an SOW, Service Provider will not be responsible for activating multifactor authentication in any application in or connected to the Environment. Customer is strongly advised to (a) educate its employees to properly identify and react to "phishing" activity (i.e., fraudulent attempts to obtain sensitive information or encourage behavior by disguising oneself as a trustworthy entity or person through email), and (b) obtain insurance against cyberattacks, data loss, malware-related matters, and privacy-related breaches, as such incidents can occur even under a "best practice" scenario. Except as otherwise expressly set forth in this Agreement, Service Provider is held harmless from any costs, expenses, or damages arising from or related to such incidents.
- 4.7 Customer acknowledges that from time to time, Service Provider may provide Customer with specific advice and directions related to the Services ("Advice"). For example, Advice may include increasing server or hard drive capacity, increasing CPU power, replacing obsolete equipment, or refraining from engaging in acts that disrupt the Environment or that make the Environment less secure. Customer is strongly advised to follow Advice which, depending on the situation, may require Customer to make additional purchases or investments in the Environment at its sole cost. Customer acknowledges and agrees that Service Provider is not responsible for any problems or issues (such as downtime or security-related issues) caused by Customer's failure to promptly follow Advice. If, in Service Provider's discretion, Customer's failure to follow Advice renders part or all of the Services economically or technically unreasonable to provide, then Service Provider may terminate the applicable Services for cause by providing notice of termination to Customer. Unless specifically and expressly stated in a SOW, any services required to remediate issues caused by Customer's failure to follow Advice, or Customer's unauthorized modification of the Environment, as well as any services required to bring the Environment up to or maintain the Minimum Requirements, are out-of-scope and not included in the Services without further remuneration to Service Provider

Customer-initiated request, or at the same time that Service Provider initiates such a request, provide a written estimate to Customer of: (a) the likely time required to implement the change; (b) any necessary variations to the fees and other charges for the Services arising from the change; (c) the likely effect of the change on the Services; (d) any other impact the change might have on the performance of this Agreement; and (e) any other information reasonably requested by the Customer.

5.2 Promptly after receipt of the written estimate, the parties shall negotiate and agree in writing on the terms of such change (a "Change Order"). Neither party shall be bound by any Change Order unless mutually agreed upon in writing in accordance with Section 17.1017.10.

#### 6. Term and Termination.

- 6.1 Term. This Agreement shall commence as of the Effective Date and shall continue thereafter until the latest to occur of the completion of the Services under all Statements of Work and a term of one year (the "Initial Term"), unless sooner terminated pursuant to this Section 666. The termination of Services under one SOW shall not, by itself, cause the termination of (or otherwise impact) this Agreement or the status or progress of any other Services between the parties.
- 6.2 Renewal. Upon expiration of the Initial Term, this Agreement shall automatically renew for additional one (1) year terms unless a party provides written notice of nonrenewal at least sixty (60) one hundred twenty (120) days prior to the end of the then-current term (each a "Renewal Term" and together with the Initial Term, the "Term"). If the Term is renewed for one or more Renewal Term, the terms and conditions of this Agreement during each Renewal Term shall be the same as the terms and conditions in effect immediately prior to such renewal, subject to any change in fees in accordance with Section 7.5.7.5.1. If either party provides timely notice of nonrenewal, then this Agreement shall terminate on the expiration of the then-current Term, unless sooner terminated as provided in this Section 666.
- 6.3 Other Termination. Service Provider, in its sole discretion, may terminate this Agreement or any SOW, in whole or in part, at any time without cause, by providing at least thirty (30) days' prior written notice to Customer, If Customer terminates this Agreement (or any applicable SOW) for a reason other than for cause as set forth in this Section 6.4 below prior to the end of the Term or any subsequent Renewal Term, or if Service Provider terminates this Agreement (or any applicable SOW) for a reason set forth in Section 6.4 below, in addition to any other amounts due to Service Provider under this Agreement, Customer shall pay to Service Provider damages equal to one hundred percent (100%) of the fees due during the one hundred twenty (120) days remaining portion of the Initial Term, any Renewal Term, and/or SOW in effect at the time of such termination. For the avoidance of doubt, the foregoing sentence will apply such that Customer will also be responsible to pay to Service Provider an amount equal to one hundred percent (100%) of the fees that would otherwise be due and payable for one hundred twenty (120) days from the date written notice of termination is given to Service Provider under an upcoming Renewal Term if Customer fails to abide by the requirements of Section 6.2 by terminating this Agreement after the expiration of sixty (60) day period described therein.

#### 6.4 <u>Termination for Cause.</u>

(a) Either party may terminate this Agreement or any SOW, effective upon written notice to the other party (the "Defaulting Party"), if the Defaulting Party: (i) materially breaches this Agreement, and such breach is incapable of cure, or with respect to a material breach capable of cure, the Defaulting Party does not cure such breach within thirty (30) days after receipt of written notice of such breach; (ii) becomes insolvent or admits its inability to pay its debts generally as they become due; (iii) becomes subject, voluntarily or involuntarily, to any proceeding under any Law relating to domestic or foreign bankruptcy or insolvency, which is not fully stayed within twenty (20) business days or is not dismissed or vacated within forty-five (45) days after filing; (iv) is dissolved or liquidated or takes any corporate action for such purpose; (v) makes a general assignment for the benefit of creditors; or (vi) has a receiver, trustee, custodian, or similar agent appointed by order of any court of competent jurisdiction to take charge of or sell any material portion of its property or business.

(b) In the event that Customer or any of its staff, personnel, contractors, or representatives engages in any unacceptable act or behavior that renders it impracticable, imprudent, or unreasonable to provide the Services to Customer, then in addition to Service Provider's other rights under this Agreement, Service Provider will have the right upon providing Customer with ten (10) days prior written notice, to terminate the Services, this Agreement, and/or any applicable SOW.

6.5 <u>Effects of Termination or Expiration</u>. Upon expiration or termination of this Agreement for any reason:

- In the event that Customer requests Service Provider's assistance to transition away from the Services, Service Provider will provide such reasonable assistance if (i) all fees due and owing to Service Provider are paid to Service Provider in full prior to Service Provider providing its assistance to Customer, and (ii) Customer agrees to pay Service Provider's then-current hourly rate for such assistance, with up-front amounts to be paid to Service Provider as it may require. For the purposes of clarity, it is understood and agreed that the retrieval and provision of passwords, log files, administrative server information, or conversion of data are transition services, and are subject to the preceding requirements. Customer also understands and agrees that any software configurations that Service Provider custom creates or programs for Customer are Service Provider's proprietary information and shall not be disclosed to Customer under any circumstances. Unless otherwise expressly stated in a SOW, Service Provider will have no obligation to store or maintain any Customer data in its possession or control beyond five (5) calendar days following the termination of the applicable Services, this Agreement and/or the applicable SOW. Notwithstanding the foregoing, Service Provider understands and agrees that the data and other records in its custody and control are public records subject to the provisions of NRS 239 and Service Provider will maintain and store all such records and data until such time as Customer notifies Service Provider that it has preserved all such records and date independently of Service Provider and the Services. Except for public records, Service Provider will be held harmless for, and indemnified by Customer against, any and all claims, costs, fees, or expenses incurred by either party that arise from, or are related to, Service Party's deletion of Customer's data beyond the time frames described in this section.

#### 8. Third Party Services; Equipment.

- 8.1 Portions of the Services may be acquired from, resold from, and/or rely upon the services of, third party vendors, manufacturers, or providers ("Third Party Provider"). Third Party Providers may provide services such as data hosting services, help desk services, malware detection services, domain registration services, data backup/recovery services, other security related services, and/or next generation technology solutions (each, a "Third Party Service"). Not all Third Party Services will be expressly identified as being provided by a Third Party Provider, and at all times Service Provider reserves the right to utilize the services of any Third Party Provider or to change Third Party Providers in its sole discretion as long as the change does not materially diminish the Services that Service Provider is obligated to provide to Customer. Customer understands and agrees that Third Party Providers are not Service Provider's contractors, subcontractors, or otherwise under its managerial or operational control. While Service Provider will endeavor to facilitate a workaround for the failure of a Third Party Service, Service Provider will not be responsible, and will be held harmless by Customer, for any failure of any Third Party Service as well as the failure of any Third Party Provider or to Customer.
- 8.2 Portions of the Services may require Customer to accept the terms of one or more third party end user license agreements with Third Party Providers ("EULAs"). If the acceptance of a EULA is required in order to provide the Services to Customer, then Customer hereby grants Service Provider permission to accept the EULA on Customer's behalf. EULAs may contain service levels, warranties and/or liability limitations that are different than those contained in this Agreement. Customer agrees to be bound by the terms of such EULAs and will look only to the applicable Third Party Provider for the enforcement of the terms of such EULAs. If, while providing the Services, Service Provider is required to comply with a third-party EULA and the third party EULA is modified or amended, Service Provider reserves the right to modify or amend any applicable SOW with Customer to ensure Service Provider's continued compliance with the terms of the third party EULA.
- 8.3 Under no circumstances will Service Provider be responsible for any data lost, corrupted, or rendered unreadable due to (i) communication and/or transmissions errors or related failures (whether onsite or cloud-based), (ii) equipment failures (including but not limited to silent hardware corruption-related issues), or (iii) Service Provider failure to backup or secure data from portions of the Environment that were not expressly designated in the applicable SOW as requiring backup or recovery services. Unless expressly stated in writing by Service Provider, Service Provider does not warrant or guarantee that any maintained storage device or functionality, data backup device or functionality, or load balancing functionality will operate in an error-free manner.
- 8.4 Customer hereby represents and warrants that Service Provider is authorized to access all devices, peripherals and/or computer processing units, including mobile devices (such as notebook computers, smart phones and tablet computers) that are connected to the Environment (collectively, "Devices"), regardless of whether such Devices are owned, leased or otherwise controlled by Customer. Unless otherwise stated in writing by Service Provider, Devices may not receive or benefit from the Services while the Devices are detached from, or unconnected to, the Environment. Customer is strongly advised to refrain from connecting Devices to the Environment where such devices are not previously known to Service Provider and are not expressly covered under a managed service plan from Service Provider ("Unknown Devices"). Service Provider will not be responsible for the diagnosis of, any failures due to, or remediation of any issues in the Environment caused by the connection or use of Unknown Devices in the Environment, and Service Provider will not be obligated to provide the Services to any Unknown Devices.

8.5 All Service Provider Equipment is licensed to Customer and is neither owned by Customer nor leased to Customer. Upon the termination of applicable Services, Customer's license to use the Service Provider Equipment shall immediately terminate, and thereafter all Service Provider Equipment must be returned to Service Provider immediately at Customer's expense. All configurations on the Service Provider Equipment are Service Provider's proprietary information and will not be circumvented, modified, or removed by Customer without Service Provider prior written consent.

- 9.2 If the Receiving Party becomes is or becomes ilegally compelled to disclose any Confidential Information, the Receiving Party shall provide: (a) prompt written notice of such requirement so that the Disclosing Party may seek, at its sole cost and expense, a protective order or other remedy; and (b) reasonable assistance, at the Disclosing Party's sole cost and expense, in opposing such disclosure or seeking a protective order or other limitations on disclosure. If, after providing such notice and assistance as required herein, the Receiving Party remains required by Law to disclose any Confidential Information, the Receiving Party shall disclose no more than that portion of the Confidential Information which, on the advice of the Receiving Party's legal counsel, the Receiving Party is legally required to disclose.

- 10.3 All equipment, machines, hardware, software, peripherals, or accessories purchased through Service Providers ("Third Party Products") are generally nonrefundable once the item is ordered from Service Provider's third party provider or reseller. If Customer desires to return a Third Party Product, then the Third Party Provider's return policies shall apply. Service Provider does not guarantee that purchased Third Party Products will be returnable, exchangeable, or that re-stocking fees can or will be avoided. Customer may be responsible for the payment of all re- stocking or return-related fees charged by the third party provider or reseller as well as reasonable charges for Service Provider time spent in processing returns on Customer's behalf. Service Provider will use reasonable efforts to assign, transfer and facilitate all warranties (if any) and service level commitments (if any) for the Third Party Products to Customer, but will have no liability whatsoever for the quality, functionality, or operability of any Third Party Products, and Service Provider will not be held liable as an insurer or guarantor of the performance, uptime, or usefulness of any Third Party Products. - 17.6 This Agreement, together with all Schedules, Exhibits, and Statements of Work and any other documents incorporated herein by reference, constitutes the sole and entire agreement of the parties to this Agreement with respect to the subject matter contained herein, and supersedes all prior and contemporaneous understandings and agreements, both written and oral, with respect to such subject matter. - 17.9 The headings in this Agreement are for reference only and shall not affect the interpretation of this Agreement.
- 17.10 This Agreement may be amended, modified, or supplemented only by an agreement in writing signed by each party hereto. No waiver by any party of any of the provisions hereof shall be effective unless explicitly set forth in writing and signed by the party so waiving. Except as otherwise set forth in this Agreement, no failure to exercise, or delay in exercising, any rights, remedy, power, or privilege arising from this Agreement shall operate or be construed as a waiver thereof; nor shall any single or partial exercise of any right, remedy, power, or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power, or privilege.
- 17.11 If any term or provision of this Agreement is invalid, illegal, or unenforceable in any jurisdiction, such invalidity, illegality, or unenforceability shall not affect any other term or provision of this Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction. Upon such determination that any term or other provision is invalid, illegal, or unenforceable, the parties hereto shall negotiate in good faith to modify this Agreement so as to affect the original intent of the parties as closely as possible in a mutually acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the greatest extent possible.
- 17.12 This Agreement shall be governed by and construed in accordance with the internal Laws of the State of Nevada without giving effect to any choice or conflict of Law provision or rule (whether of the

State of Nevada or any other jurisdiction) that would cause the application of Laws of any jurisdiction other than those of the State of Nevada. Any legal suit, action, or proceeding arising out of or related to this Agreement or the Services provided hereunder shall be instituted exclusively in the federal courts of the United States or the courts of the State of Nevada sitting in the Ninth Judicial District of the State of Nevada, and each party irrevocably submits to the exclusive jurisdiction of such courts in any such suit, action, or proceeding. Service of process, summons, notice, or other document by mail to such party's address set forth herein shall be effective service of process for any suit, action, or other proceeding brought in any such court. The parties mutually agree that, unless otherwise prohibited by law, any action for any matter arising out of or related to any Service, this Agreement, or any SOW (except for issues of nonpayment by Customer) must be commenced within six (6) months after the cause of action accrues or the action is forever barred.

17.13 Each party irrevocably and unconditionally waives any right it may have to a trial by jury in respect of any legal action arising out of or relating to this Agreement or the transactions contemplated hereby. Except for undisputed collections actions to recover undisputed fees due to Service Provider ("Collections"), any dispute, claim or controversy arising from or related to this Agreement, including the determination of the scope or applicability of this agreement to arbitrate, shall be settled by arbitration before one arbitrator who is mutually agreed upon by the parties. If the parties are unable to agree upon an arbitrator, each shall select an arbitrator and those arbitrators shall select a third arbitrator to arbitrate the matter. The arbitration shall be administered and conducted by the American Arbitration Association (the "AAA") or if there is no AAAcertified arbitrator available within a twenty (20) mile radius of Service Provider office, then by any arbitration forum as determined by Service Provider, pursuant to the selected forum's arbitration rules for commercial disputes (the "Rules"). In the event of any inconsistency between the Rules and the procedures set forth in this paragraph, the procedures set forth in this paragraph will control. The arbitrator will be experienced in contract, intellectual property and information technology transactions. If the parties cannot agree on an arbitrator within fifteen (15) days after a demand for arbitration is filed, the arbitration venue shall select the arbitrator. The arbitration shall take place in <a href="Douglas County">Douglas County</a>, <a href="Vevada">Vevada</a> a venue of Service Provider choice. The arbitrator will determine the scope of discovery in the matter; however, it is the intent of the parties that any discovery proceedings be limited to the specific issues in the applicable matter, and that discovery be tailored to fulfill that intent. Initially, the cost of the arbitration shall be split evenly between the parties; however, the party prevailing in the arbitration shall be entitled to an award of its reasonable attorneys' fees and costs.

17.14 — Each party acknowledges that a breach by a party of Section 9 (Confidentiality), and Section 14 (Non-Solicitation) may cause the non-breaching party irreparable damages, for which an award of damages would not be adequate compensation and agrees that, in the event of such breach or threatened breach, the non-breaching party will be entitled to seek equitable relief, including a restraining order, injunctive relief, specific performance, and any other relief that may be available from any court, in addition to any other remedy to which the non-breaching party may be entitled at law or in equity. Such remedies shall not be deemed to be exclusive but shall be in addition to all other remedies available at law or in equity, subject to any express exclusions or limitations in this Agreement to the contrary.

17.1517.14 If any action, suit, or other legal or administrative proceeding is instituted or commenced by either party hereto against the other party arising out of or related to this Agreement, the prevailing party shall be entitled to recover its reasonable attorneys' fees and court costs from the non-prevailing party.

17.1617.15 This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Agreement delivered by facsimile, email or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Agreement.

7. **Background Information:** The District Administration is seeking permission to exceed the maximum approved position roster for Firefighter/EMT, Firefighter/EMT Advanced, and/or Firefighter/Paramedic by one qualified FTE position not to exceed 60 shifts from time of appointment and at a total cost allocation not to exceed \$80,000. The District currently has one FTE available which will be filled by the end of the spring Academy. The District also has at least one long-term employee who has stated a future retirement which will generate a second position. The additional position being requested will allow the District some flexibility with other potential retirements and/or line of duty injury issues creating long-term vacancies. Funding for this request exists in the current year budget. The additional position will also allow the District to increase its off-district response capability by one position, under our current 10-person limitation. The benefit to the employee selected will be significant. The Labor Association has been contacted regarding the possible action and as required in the CBA, as this action would have an impact on overtime potential for a certain number of approved positions. Personnel for these positions will be provided from the existing Fuel/Fire crew. Recruitment is underway for Fuels and Fire personnel. The Administration recommends approval.

- **6. Agenda:** Administrative
- **Background Information:** The East Fork Fire Protection District Administration is seeking approval to apply for 2023 AFG funding for the purposes of purchasing a mobile roof ventilation training prop. The device would be integrated into the District's training structure currently approved from bid solicitation and permitted. The unit would be mobile and could be used and set up in other parts of the District if necessary. The unit could also be assigned to academy duty. Under grant guidance, the District would be responsible for 10% of the grant allocation amount or \$8,000. If approved, those funds would appear in the proposed FY23/24 Fiscal Year Budget.

The District has seen over 40 new personnel in firefighting positions over the past 5 years. The need for this prop is very necessary and would integrate into the new training facility nicely.
