MONTHLY REPORT

MESSAGE FROM THE FIRE CHIEF

Over the past month, the District has achieved several important milestones that reflect both our growth and our continued commitment to serving the community:

- **Welcomed New Firefighters:** Four new firefighters joined our ranks and began their academy training on October 6, 2025. We are excited to see them develop their skills.
- **Progressive Partnership with NDF:** We signed an agreement with the Nevada Division of Forestry to co-staff a hand crew and cohabitate at Station 15—an important step toward strengthening regional collaboration and improving service delivery.
- **Helicopter Staffing:** Our personnel have begun staffing the helicopter, enhancing our capabilities for rapid response.
- **Updated Fire Code & Fee Structure:** We presented the updated fire code and a new fee structure, ensuring our community is better aligned with current safety standards and resources.
- **Community Engagement:** I attended numerous HOA and community meetings, continuing our efforts to build strong relationships and maintain open communication with the residents we serve.
- **A Special Honor:** Congressman Mark Amodei presented our stations with an American flag that had been flown over the U.S. Capitol. This gesture is a meaningful tribute to the dedication of our firefighters and the service they provide every day.

These accomplishments highlight the dedication of our team and our ongoing focus on innovation, safety, and community partnership. I am proud of the progress we have made together and look forward to the months ahead.

DEPARTMENT NEWS

HUMAN RESOURCE/ADMINISTRATION

Firefighter Academy

Our four new firefighters have begun the 16-week academy and are off to a strong start. We'll continue to share progress milestones as they advance through the program.
