

# Living With Fire

*Bridging the gap between science and action to help communities address the challenges of wildfire*

## Fire Adapted Nevada Summit Highlights

Thank you to everyone who joined us on March 17–18 in Reno and helped make the **Fire Adapted Nevada Summit a success!**

We're still reflecting on the powerful insights and key takeaways from this incredible event and will be sending out a full follow-up soon. In the meantime, here are a few quick highlights:

- Over **200 attendees** representing agencies, nonprofits, fire departments, and community leaders across Nevada
- A powerful keynote address from **Frank Frievalt** on aligning stakeholders and looking at many fire adaptation pathways
- Engaging panel discussions on wildfire insurance challenges, emergency alerts, and community preparedness
- Interactive workshops exploring the Neighborhood Ambassador model and community organizing strategies

A huge thank-you to our sponsors—Truckee Meadows Water Authority, NV Energy Foundation, the Bureau of Land Management, Sierra Front Wildfire Cooperators and Reno Green Landscaping—for making this event possible. Your support helps drive meaningful conversations and action around wildfire adaptation in Nevada.

Thanks again for being part of the conversation. We're looking forward to building on this momentum together!

## Get Ready for Nevada Wildfire Awareness Month!

May is **Nevada Wildfire Awareness Month**—a statewide campaign dedicated to wildfire education, preparedness, and community action.

We invite you to join us in making this year's campaign a success and empowering our communities to be **Battle Born, Wildfire Ready!**

---

# To support your local wildfire awareness efforts, we can provide:

## Social Media Toolkit

The Living With Fire Social Media Toolkit contains wildfire preparedness messages on various topics you can share on your social media channels. Feel free to copy these messages directly or customize them for your audience.

[Explore the Toolkit](#)

## Education Materials

We invite you to view our growing library of publications. View online, download and print, or contact us to request a copy in your area.

# New Resources

## Eco-anxiety and Wildfire

As the impacts of climate change and environmental disasters such as destructive wildfires become more apparent, negative feelings about these challenges is increasing. Psychologists call this “eco-anxiety.”

## Tools in the Toolbox: Different methods for fuels management in Nevada

“Fuels management” involves reducing the amount of vegetation in an area to reduce the intensity and spread of potential wildfires. Understanding the different methods of fuels management is crucial for residents in high-fire hazard areas that want to reduce their wildfire risk.
