

Now in Effect: STAGE 1 Fire Restrictions- Western and Northeastern Nevada

Stage 1 Fire Restrictions are now in effect for Western and Northeastern Nevada. This level of restriction prohibits certain activities that pose a high risk of igniting a wildfire, excepting those conducted under the authorization of a valid permit.

Unless specifically permitted, these restrictions prohibit:

- Setting, building, maintaining, attending, or using open fire of any kind, except campfires within approved fire pits and grills provided for in developed recreation sites. Controlled flame devices such as portable stoves and lanterns with shut-off valves, using gas, jellied petroleum, or pressurized liquid fuel are allowed.
- Smoking, except within an enclosed vehicle or camp trailer, or while stopped or standing in a three-foot diameter area barren or cleared of all flammable materials.
- Operating or parking a vehicle or other motorized equipment over or on top of dried/cured vegetation.
- Any Hot Work involving electric or gas welding, cutting, brazing, or similar flame or spark-producing operations.

For more information, visit [Fire Restrictions in Western Nevada to begin June 21 | Bureau of Land Management \(blm.gov\)](#) or [Stage 1 Northeastern Nevada Fire Restrictions Announced for 2024 | Bureau of Land Management \(blm.gov\)](#).
